<b>Introduction</b> . . . . .	ix
<b>Chapter 1. Simondon's Philosophy of Technics: A Work Program</b> . . . . .	1
1.1. A philosophy of technicity . . . . .	1
1.1.1. Simondonian functionalism . . . . .	4
1.1.2. The question of the localization of technicity . . . . .	12
1.1.3. The question of the representatives of technicity . . . . .	17
1.2. The Simondonian method: approaching the technical object as closely as possible . . . . .	21
1.2.1. The epistemological stakes: an inductive method . . . . .	22
1.2.2. Case study of a technological example . . . . .	24
1.2.3. Reproducing the Simondonian gesture . . . . .	28
1.3. Confronting Simondon's thoughts with computers . . . . .	29
1.3.1. Existing work on Simondon and computers . . . . .	29
1.3.2. The positioning of our study . . . . .	35
<b>Chapter 2. Genetic Study of Technology: the Software Program, A Technical Object?</b> . . . . .	37
2.1. Definition and problem statement of the digital object . . . . .	37
2.1.1. Technical objects according to Simondon . . . . .	38

2.1.2. The browser, a digital object that represents software . . . . .	40
2.2. Constructing the software program from the margin of indeterminacy . . . . .	51
2.2.1. The computer-machine and the margin of indeterminacy . . . . .	52
2.2.2. The complexification of computer code . . . . .	59
2.2.3. Three hypotheses on the status of the software program . . . . .	64
2.3. The levels of technicity of software . . . . .	65
2.3.1. The genesis of the browser . . . . .	66
2.3.2. The element, the associated milieu . . . . .	70
<b>Chapter 3. Psychosocial Study of Free Software . . . . .</b>	<b>77</b>
3.1. The problem of the industrial technical object . . . . .	79
3.1.1. The question of the commensurability of technics . . . . .	80
3.1.2. The dual alienation of industrial technical objects . . . . .	81
3.1.3. Saving the technical object by dethroning it . . . . .	87
3.2. The promise of openness of software as a postindustrial technical object . . . . .	89
3.2.1. A complex system . . . . .	90
3.2.2. A postindustrial configuration . . . . .	91
3.2.3. The free software program, guarantor of software technicity . . . . .	94
3.3. Bricolage with the digital technical object . . . . .	98
3.3.1. Aspects and extension of the concept of bricolage . . . . .	99
3.3.2. Computer bricolage . . . . .	106
<b>Conclusion . . . . .</b>	<b>117</b>
