Preface	ix
Introduction	xiii
Chapter 1. Theoretical and Empirical Framework	1
1.1. Innovation management: introductory elements	2
1.1.1. Diversity and legitimacy of innovation	3
1.1.2. Typology of innovations	5
1.1.3. Developing product innovations	9
1.1.4. The industry cycle	15
1.2. The space industry	22
1.2.1. Why study the space industry?	23
1.2.2. Sources and level of analysis	24
1.2.3. The boundaries of the space industry	25
1.2.4. Structure of the space industry	28
Chapter 2. The Emergence of Industry: The Influence of Demand	43
2.1. The space industry is in the emerging phase ...	44
2.1.1. Emergence as an object of study	44
2.1.2. Characterizing emergence	46
2.1.3. Method: sources and measurements	49
2.1.4. Results	53
2.1.5. Discussion	56

2.2. Customers shape the industry dynamics in the emergence phase	57
2.2.1. Theoretical framework	57
2.2.2. Sources	60
2.2.3. Results: influence of customers on the emergence of the space industry.	60
2.2.4. Discussion and implications	65
2.3. Demand influences technological change.	70
2.3.1. Sources, data and indicators	70
2.3.2. Loss of impetus resulting in technical change.	72
2.3.3. Influence of demand on technological change.	78
2.3.4. Discussion and conclusion.	84
Chapter 3. Slow Adoption of Innovations: A Key Success Factor	87
3.1. Slow adoption of technological innovations: a key success factor	88
3.1.1. Introduction	88
3.1.2. Inertia: a literature review	90
3.1.3. Modeling a strategy of technological inertia based on reliability	94
3.1.4. Research methodology	97
3.1.5. Results	105
3.1.6. Discussion and conclusion.	106
3.2. Slow adoption of organizational innovations: a key success factor	109
3.2.1. Introduction	109
3.2.2. Organizational change: a literature review.	111
3.2.3. Modeling the organizational inertia strategy.	116
3.2.4. Methodology	117
3.2.5. Results	118
3.2.6. Discussion and conclusion.	126
Chapter 4. Technological Discontinuities and Strategic Diagnosis	131
4.1. Disruptive innovations and threat analysis	132
4.1.1. Introduction	132

4.1.2. The theory of disruptive innovations	134
4.1.3. Model	139
4.1.4. Methodology	144
4.1.5. Results	145
4.1.6. Discussion	156
4.1.7. Conclusion.	158
Conclusion.	161
References	169
Index	191
