Foreword	xiii
Tuan Hung VU	
Preface	xv
Vikas KUMAR and Manju LATA	
Acknowledgements	xxi
Vikas KUMAR and Manju LATA	
Chapter 1. Nurturing an Inquisitive Mind in the Era of All-Knowing Chatbots	1
Ikbal MAULANA	
1.1. Introduction.	1
1.2. Technological cognitive enhancement	3
1.3. From endless distraction to cognitive erosion.	4
1.4. Fundamental differences between chatbots and humans	7
1.5. What we can know that chatbots cannot.	11
1.6. Using chatbots to cultivate critical thinking.	13
1.7. Conclusion	16
1.8. References	17
Chapter 2. Artificial Intelligence (AI) in Education.	23
Tiara Nur ANISAH and Andika ANDIKA	
2.1. Introduction.	23

2.2. Basic concepts of artificial intelligence in education	24
2.2.1. Definition of artificial intelligence in education	25
2.2.2. History and evolution of AI in education	25
2.2.3. Categories and types of AI used in education	26
2.3. Implementation of AI in education	27
2.3.1. AI in adaptive learning.	27
2.3.2. AI in the writing of a scientific journal	28
2.3.3. AI in assessment	30
2.4. Opportunities and impact of AI in education	32
2.4.1. Opportunities and benefits of AI to improve the quality of education	32
2.4.2. Impact of AI in education	32
2.4.3. Digital divide and accessibility.	34
2.5. Case studies of AI implementation in various educational institutions.	35
2.6. Recommendations for AI development in education	36
2.7. Conclusion	37
2.8. References	38
 Chapter 3. AI and Higher Education	 41
Mandakini PARUTHI, Sonam RANI, Sailaja BOHARA, Gaurav GUPTA and Amitabh BHARGAVA	
3.1. Introduction.	41
3.2. Defining AI.	42
3.3. Need for AI in higher education.	43
3.4. Research methodology	43
3.5. Discussion	54
3.6. Implications	54
3.7. Conclusion	55
3.8. References	56
 Chapter 4. Chatbot Technologies in Digital Entrepreneurship Education for Adults	 61
Thomas FOTIADIS, Ioanna THEOPHILOU, Evangelia VANEZI, Christos METTOURIS and George Angelos PAPADOPOULOS	
4.1. Introduction.	61
4.2. Literature review.	62
4.3. Development of a chatbot learning environment	66
4.3.1. Teachers	67
4.3.2. Learners	69

4.3.3. Multilingual	70
4.3.4. Learning modules.	71
4.3.5. Courses content and quizzes	72
4.4. Methodology	74
4.4.1. Post-design phase and pilot implementation	74
4.4.2. Pilot study	74
4.4.3. Target group	75
4.4.4. Procedure.	75
4.5. Results.	75
4.5.1. Quantitative data	75
4.5.2. Qualitative data	77
4.6. Discussion	78
4.7. Conclusion	79
4.8. Future work.	80
4.9. Acknowledgments.	82
4.10. References.	82
 Chapter 5. Role of Chatbots as Virtual Tutors in LMS	 85
Shilpi CHAKRAVARTY, Mahesh Chandra JOSHI and Iti GAUR	
5.1. Introduction.	85
5.1.1. Virtual tutors.	87
5.2. Definition and role of virtual tutors in modern education.	88
5.3. Virtual tutors and learning management systems.	90
5.4. Designing an effective chatbot tutor	92
5.4.1. Key features and capabilities of a chatbot tutor	93
5.5. Chatbot tutors versus human tutors.	94
5.6. Challenges in implementing chatbots as virtual tutors.	96
5.7. The future of chatbot tutors in LMSs.	97
5.8. Conclusion	99
5.9. References	100
 Chapter 6. Pre-Class Learning in a Flipped Classroom and the Role of Chatbot	 103
Sandhya RAI and Vy Ngoc LE HO	
6.1. Introduction.	103
6.1.1. Pre-class learning.	105
6.2. Pre-class learning: importance, roles and methods.	106
6.3. Pre-class learning chatbots.	109
6.3.1. Types of chatbots	109
6.3.2. Role of the chatbot in pre-class learning	111

6.3.3. Examples of merger of chatbot and flipped classroom	113
6.4. Challenges of integrating AI chatbots into flipped learning	114
6.5. Conclusion	115
6.6. References	116

**Chapter 7. Leveraging Chatbots in Management Education:
Enhancing LMS Integration and Flipped Classroom Models** 121
Arunava DALAL and Subhajit BHATTACHARYA

7.1. Introduction.	121
7.2. Literature review and hypothesis development	123
7.2.1. Flipped classrooms	123
7.2.2. Learning management system	123
7.2.3. Institute readiness.	124
7.2.4. Students' attitudes	125
7.2.5. Pedagogical design	125
7.2.6. Academic outcomes	126
7.3. Theoretical framework	126
7.4. Methodology	127
7.5. Findings	128
7.6. Discussion	132
7.7. Conclusion	134
7.7.1. Implications	134
7.7.2. Limitations and future research directions	135
7.8. References	135

**Chapter 8. An Analysis of the Quality of Technology Integration
in Learning Management Systems and Its Impact on Teaching
Performance** 141
FAISOL and Diah NURDIWATY

8.1. Introduction.	142
8.2. Literature review and hypothesis	143
8.2.1. The impact of PEU on enhancing academic performance	143
8.2.2. The function of user engagement as a mediating factor	143
8.2.3. The impact of TIQ on enhancing academic performance	144
8.2.4. The function of user engagement as a mediating factor	144
8.2.5. The impact of resource access on enhancing academic performance.	145
8.2.6. The mediating role of user engagement in academic performance.	146
8.3. Method	148

8.4. Results	149
8.4.1. The measurement model	149
8.4.2. Results of convergent validity and reliability	149
8.4.3. Discriminant validity	151
8.4.4. The structural model	153
8.5. Discussion	157
8.5.1. PEU and academic performance	157
8.5.2. User engagement as a mediator between PEU and academic performance	159
8.5.3. Relationship between TIQ and academic performance improvement	160
8.5.4. The role of user engagement in mediating TIQ and academic performance	162
8.5.5. Access to resources and improvement in academic performance	163
8.5.6. User engagement as a mediator between access to resources and academic performance	164
8.6. References	165

Chapter 9. The 4IR Paradox: Navigating Autonomy and Regulation in Higher Education 171

Linda PAUL and Ravinder RENA

9.1. Introduction	171
9.2. Literature review	175
9.2.1. Conceptual framework	177
9.2.2. Emerging concepts	177
9.2.3. Introducing relations between conceptions	177
9.2.4. Critical evaluation	178
9.3. Methodology	179
9.3.1. Study population and sampling	179
9.3.2. Data analyzed using NVivo	180
9.4. Findings	181
9.4.1. In what ways do academic institutions utilize their autonomy to leverage new innovative 4IR technologies?	181
9.4.2. What are the main regulatory challenges about the adoption of 4IR technologies by HEI?	182
9.4.3. When it comes to conflict between regulation and autonomy, which strategies do universities use?	183
9.4.4. What virtuous and/or vicious circles does the 4IR paradox create for higher education institutions to transform society?	184
9.5. Conclusion	185
9.6. References	188

Chapter 10. AI-Driven Chatbots: Enhancing Educational Experiences Through Data Analytics	193
Jyoti ARORA, Charnpreet KAUR, Puneet KAUR, Anupam MITTAL and Manju LATA	
10.1. Introduction	194
10.2. Literature review	195
10.3. Understanding chatbot interactions: data collection	198
10.4. Gaining insights from chatbot data	201
10.5. Identifying trends, patterns and user segmentation	202
10.6. Challenges and best practices	203
10.7. Future trends and conclusions in chatbot analytics	205
10.8. References.	208
 Chapter 11. A Chatbot-integrated Deep Learning Approach for Rice Leaf Disease Detection in the Mekong Delta Region of Vietnam.	211
Huu-Hoa NGUYEN, Van-Kiet VO and Thai-Nghe NGUYEN	
11.1. Introduction	211
11.2. Related work	213
11.3. System architecture	216
11.4. Rice leaf disease detection component	217
11.4.1. Data collection.	217
11.4.2. Data preprocessing	219
11.4.3. Deep learning model configurations	220
11.5. Chatbot component	222
11.5.1. Data collection and preprocessing	222
11.5.2. Rasa framework	224
11.6. Experimental analysis	225
11.6.1. Computational environment and evaluation metrics.	225
11.6.2. Deep learning model performance	225
11.6.3. Chatbot creation	230
11.7. Conclusion and perspectives	235
11.8. References.	237
 Chapter 12. Opportunities, Limitations and Challenges of EDA Playground and ChatGPT Regarding Verification: A Case Study on Testbench Failures	241
Joel Gonçalves DE OLIVEIRA and Marcio Eduardo KREUTZ	
12.1. Introduction	241
12.2. Testbench and software testing	242

12.3. The case of EDA Playground	244
12.4. Using ChatGPT.	254
12.5. Comparative analysis	256
12.6. Conclusion	258
12.7. References.	259
List of Authors	261
Index	265
