Presentation of the Authors of the Two Volumes	xiii
Introduction	xxiii
Angela BARTHES, Catherine CIBIEN and Bruno ROMAGNY	
Part 1. Process, Governance and Climate Change Across the Mediterranean	1
Introduction to Part 1	3
Catherine CIBIEN	
Chapter 1. Biosphere Reserves in National Legislation and Public Policy	5
Catherine CIBIEN, Lahoucine AMZIL, Joelle BARAKAT, Antonio BONTEMPI, Pierre DOUMET and Maria Carmen ROMERA-PUGA	
1.1. Introduction	5
1.2. The place of the “biosphere reserve” in national legislation	6
1.3. The place of MAB national committees in national governments	9
1.3.1. In Spain	9
1.3.2. In France.	11
1.3.3. In Morocco	12
1.3.4. In Lebanon.	12
1.4. The place of the “biosphere reserve” model in public policy	13
1.4.1. In Spain	14
1.4.2. In France.	18
1.4.3. In Morocco	23
1.4.4. In Lebanon.	25
1.5. Discussion	26
1.6. References	28

Chapter 2. The Emergence and Evolution of Mediterranean Biosphere Reserves in France	31
Catherine CIBIEN	
2.1. Profound changes across first-generation sites (1977)	31
2.2. The recognition of local development projects promoting natural and cultural heritage	34
2.3. References	37
Chapter 3. Perspectives on Mediterranean Biosphere Reserves	39
Ken REYNA, Martí BOADA and Mehich DERAK	
3.1. Close-up on the strengthening of the Mont Ventoux Biosphere Reserve's governance	39
3.1.1. Introduction	39
3.1.2. An iconic Mediterranean mountain	39
3.1.3. Conserving and developing the assets of an exceptional area	40
3.1.4. Governance evolving with the times	40
3.2. Close-up on the Montseny Biosphere Reserve	42
3.3. Close-up on the Menorca Biosphere Reserve	43
3.4. Close-up on environmental education and SDGs, an opportunity for Mediterranean Biosphere Reserves	44
3.5. Close-up on the Intercontinental Biosphere Reserve of the Mediterranean	46
3.6. References	50
Chapter 4. From the Ecological Quality Status Evaluation to the Knowledge Transferability. A Cross-cutting Experience in Montseny Biosphere Reserve	51
Sònia SÀNCHEZ-MATEO, Antoni MAS-PONCE and Roser MANEJA	
4.1. Introduction	51
4.2. Mediterranean river basins as valuable and complex socio-ecosystems	52
4.2.1. The evaluation of ecological quality status	52
4.2.2. Knowledge transfer and environmental education	53
4.3. Study area: Montseny Biosphere Reserve	54
4.3.1. Observatori Rivus, a cross-cutting project in Mediterranean river basins	55
4.3.2. Sampling units	56
4.4. Research areas	58
4.4.1. Biological monitoring	58
4.4.2. Hydromorphological monitoring	62
4.4.3. Physicochemical monitoring	63
4.5. Environmental education, communication and training program	63
4.5.1. Formal education	65
4.5.2. Nonformal education	65

4.5.3. Informal environmental education	65
4.6. A 15-year period implementing PROECA in the Montseny Biosphere Reserve	66
4.7. Conclusion	68
4.8. Acknowledgements	69
4.9. References	69
Chapter 5. Do We Need to Choose Between Biodiversity, Industry and Tourism? A Metabolic Approach to Manage the Mediterranean Biosphere Reserve of Menorca	73
Alejandro MARCOS-VALLS	
5.1. Introduction	73
5.2. Societal metabolism	74
5.3. MuSIASEM: integrating information from multiple scales to improve participation and stakeholder engagement	75
5.4. The case of Menorca: a Mediterranean Biosphere Reserve with an action plan to implement the sustainable development goals.	79
5.5. Menorca 2025. An Action Plan for the Menorca Biosphere Reserve	81
5.6. Metabolic performance of economic sectors in Menorca. Application of the MuSIASEM approach	83
5.7. Discussion: do we need to choose between biodiversity, industry and tourism?	85
5.8. Conclusion	88
5.9. References	89
Chapter 6. The Jabal Moussa Biosphere Reserve (Lebanon): A Private Association Initiative	95
Pierre DOUMET and Joelle BARAKAT	
6.1. Introduction	95
6.2. Rich by nature	95
6.3. A privately run biosphere reserve	98
6.4. International recognition	99
6.5. Administration led by socio-economic expectations	100
6.6. Efforts at increasing understanding and awareness of an exceptional biodiversity	102
6.7. References	103
Chapter 7. Understandings of Administration and Challenges to Governance in the Arganeraie Biosphere Reserve (Morocco)	105
Abdelaziz AFKER	
7.1. Introduction	105
7.2. A biosphere reserve built around an iconic tree: the argan tree	105

7.3. An integrated approach to conservation and ecodevelopment	107
7.4. Participation-oriented administration	110
7.5. Regarding the research/education/management dialogue	111
7.6. References	112
Chapter 8. Reconciling Conservation and Sustainable Development: The Example of the Arganeraie	113
Abdelaziz AFKER and Saïd BOUJROUF	
8.1. Introduction	113
8.2. The ABR, between conservation and sustainable territorial development: reconciling the irreconcilable	114
8.3. The complex challenges characterizing the ABR, or relevance and adaptation in conciliatory resilience.	116
8.4. Changes and scalable trends in the ABR: from project territories to a territorial project	117
8.5. The ABR, complexities and improved governance.	119
8.6. References	120
Chapter 9. Patrimonialization and Challenges to Sustainable Development within the Arganeraie Biosphere Reserve	123
Wahiba MOUBCHIR and Saïd BOUJROUF	
9.1. Introduction	123
9.2. The ABR: a territory valued for the endemism of its heritage resources	124
9.2.1. The ABR: the context of its creation and functions	124
9.2.2. The Arganeraie: a resource deposit under anthropogenic pressure	128
9.3. The ABR patrimonialization process	130
9.4. Paths of governance for the integrated management of the ABR	134
9.4.1. The path of the contract	136
9.4.2. The path of deliberation: consultation and concertation	136
9.4.3. The path of incentivization.	137
9.4.4. The path of institutional rearrangement.	137
9.5. Conclusion	138
9.6. References	139
Chapter 10. The Oasis du Sud Marocain Biosphere Reserve: Challenges and Issues for the Durability of Water Resources	141
Lahcen AZOUGARH and Ahmed MOUHYIDDINE	
10.1. Introduction.	141
10.2. Specificities of the Oasis du Sud Marocain Biosphere Reserve and the question of water	142
10.3. Regional development and the deterioration of water resources	144

10.4. Challenges and complexities of water resource management within the OSMBR	145
10.5. Conclusion	146
10.6. References	147
Part 2. Issues and Case Studies in the Southern Mediterranean	149
Introduction to Part 2	151
Catherine CIBIEN	
Chapter 11. Pesticide Residue in the Waters of the IBRM	153
Hind EL BOUZAI, Fatimazahra HAFIANE, El Habib EL AZZOUZI and Mohammed FAEKHAOU	
11.1. Introduction	153
11.2. Materials and methods	154
11.2.1. Materials used	154
11.2.2. Methods used and procedures of analysis	156
11.3. Results and discussions	156
11.3.1. Pesticide use	156
11.3.2. Water compartment contamination risks in the upstream reaches of the Intercontinental Biosphere of the Mediterranean (IBRM).	158
11.4. Evaluation of the risks of pesticides to human health	160
11.5. Evaluation of the risks of pesticides for the environment	160
11.6. Conclusion	161
11.7. References	162
Chapter 12. Forest Fires: Their Impact on the Sustainable Development of the IBRM	165
Rachid SAMMOUDI, Abdelkader CHAHLAOU, Nadia MACHOURI, Lahoucine AMZIL, El Habib EL AZZOUZI, Reda NACER, Kawtar JABER and Maya KOUZAIHA	
12.1. Introduction	165
12.2. The phenomenon of forest fires in the northern provinces	167
12.3. Links between sustainable development and forest fires	169
12.4. Conclusion	170
12.5. References	171
Chapter 13. The Social and Solidarity Economy and Biodiversity in the Intercontinental Biosphere of the Mediterranean	173
Hicham ATTOUCH, Soukaina BOUZIANI and Sonia ADERGHAL	
13.1. Some framing of the concept of the social and solidarity economy	173
13.2. Development of natural resources in the Intercontinental Biosphere Reserve of the Mediterranean (IBRM) and the SSE framework	175

13.3. The role of the SSE in the conservation and development of natural resources	177
13.4. Conclusion	180
13.5. References	180

Chapter 14. The Media Coverage of the Biosphere Reserve: Ambivalence Between the Protection of Nature and the Promotion of Territories. The Case of RBIM 183
 Lahoucine AMZIL, Yamina EL KIRAT EL ALLAME and Faiza EL MEJJAD

14.1. Introduction	183
14.2. Biosphere reserves: general background	184
14.3. The media environment around the biosphere reserve	188
14.3.1. Place of the biosphere reserve in the media channel	190
14.3.2. Role of media and biosphere reserve actors	193
14.4. Representation of RBIM in the Moroccan media	195
14.4.1. Role of stakeholders in the visibility and access to RBIM	195
14.4.2. Measures and strategies for improving the biosphere reserves	198
14.5. Concluding remarks	201
14.6. References	202

Chapter 15. Mid-Atlas Cedar Forests and Climate Change 205
 Driss CHAHHOU

15.1. Introduction	205
15.2. General overview of climatic changes	206
15.2.1. General aspects of climate change in the Mediterranean region	206
15.2.2. Effects of drought on trees and forest stands	207
15.2.3. The role of forest stands with regard to the water retention capacity of soils	208
15.2.4. Potential strategies for facing climate change	209
15.3. The vulnerability of forests to climate change	209
15.3.1. The vulnerability of Morocco's climatic context and foreseeable changes	209
15.3.2. Deterioration, deforestation and transformation of forest habitats	210
15.3.3. Cedar diebacks: an indicator of climate change	211
15.4. Potential impacts of climate change on cedar forests	212
15.4.1. Elements of the Atlas cedar vulnerable to climate change	212
15.4.2. Impact on the growing season and distribution area of the cedar	213
15.5. Conclusion	214
15.6. References	215

Chapter 16. The Legacy and Future of Conservation in El Kala National Park (Algeria)	219
Tarik DAHOU	
16.1. Introduction	219
16.2. Declinism, forest exploitation and management in the EKNP	221
16.2.1. The legacy of declinism in the EKNP	225
16.2.2. Uses of the EKNP's natural resources	228
16.2.3. The structure of rural revenue in the EKNP.	230
16.2.4. Conservation for improved exploitation.	231
16.3. The spread of fishing and marine conservation in the EKNP.	233
16.3.1. Lake and lagoon fishing.	236
16.3.2. Maritime fishing.	238
16.3.3. Trawling	240
16.3.4. Seine purse fishing	242
16.3.5. Drift net and longline fishing.	243
16.4. Marine conservation and declinist rhetoric.	244
16.5. Conclusion	246
16.6. References	247
Chapter 17. Social Representations of Biospheres and Sustainable Local Development in Bou Hedma (Tunisia)	251
Abdelkarim BRAHMI	
17.1. Introduction	251
17.2. Bou Hedma National Park.	252
17.3. Methodological research framework	253
17.4. Social representations of Bou Hedma National Park among the surrounding population.	254
17.4.1. Negative representations: "the park as problem"	255
17.4.2. Positive representations: "the park as symbol of identity"	256
17.5. Discussion and interpretation	256
17.5.1. Negative representations: "the park as problem"	256
17.5.2. Positive representations: "the park as symbol of identity"	260
17.6. The cultural dimension.	260
17.7. The political dimension	260
17.8. The environmental dimension.	261
17.9. Conclusion	262
17.10. References	263

Chapter 18. Architecture and the Biosphere Environment in Pedagogy: Design Visions for Sustainable Dwelling Communities	265
Carla ARAMOUNY	
18.1. Introduction	265
18.2. Architecture and the environment.	266
18.3. Jabal Moussa Biosphere Reserve and the studio's premise.	267
18.3.1. Studio methodology and research in three scales of operation	268
18.3.2. Student architectural proposals and results	283
18.4. Conclusion	288
18.5. References	289
List of Authors	291
Index.	295
Summary of Volume 1	297
