Preface	xi
Priya BATTa, Abhishek KUMAR, Sachin AHUJA and Pramod Singh RATHORE	
Introduction	xiii
Priya BATTa, Abhishek KUMAR, Sachin AHUJA and Pramod Singh RATHORE	
Part 1. AI for Smart Energy Systems and Renewable Technologies	1
Chapter 1. Simulation-based Performance Assessment of a 100-kW Hybrid Solar–Wind Energy System in Coastal Karnataka	3
Mainuddin M. SHIRBADAGI, Iqbal AHAMMED and K. Fazlur RAHMAN	
1.1. Introduction	3
1.1.1. Block diagram representation of proposed system.	5
1.1.2. Solar and wind power output for 100-kW system in Coastal Karnataka	6
1.1.3. Hourly performance and grid deficit analysis of a hybrid renewable energy system in Coastal Karnataka	6
1.1.4. System configuration	7
1.1.5. Mathematical formulation based on the hybrid system data solar + wind and ITS interaction with the load demand and grid	8
1.2. MATLAB/Simulink simulation model results of a hybrid renewable energy system integrating wind and solar	10
1.3. Conclusion	12
1.4. References	13

Chapter 2. Design and Analysis of an Intelligent Battery Management System for EV using MATLAB and IOT Technologies	17
Mainuddin M. SHIRBADAGI, K. Fazlur RAHMAN, K.S. KHUDDIYA, Kewka Danish AHMED, Musadiq Fakirsab KHALIF and Shabuddin A. KHADAK	
2.1. Introduction	17
2.1.1. Block diagram representation of proposed system.	18
2.2. MATLAB Simulink's model-based design	24
2.2.1. Comprehensive specifications of lithium–nickel–manganese–cobalt oxide (Li-NMC) battery cell	24
2.2.2. Graphical representation	26
2.2.3. Battery management system MATLAB Simulink model	27
2.2.4. Simulation results and parameter estimation	28
2.2.5. Variable battery conditions.	29
2.3. Results and description	32
2.4. Conclusion	33
2.5. References	34
Chapter 3. AI-based Voltage Optimization for Energy-Efficient Street Lighting in Smart Cities	37
K. MADHURA, Akhil Balachandra NAIK, M.H. SUMAN and Immanuel SELVAN	
3.1. Introduction	37
3.2. Literature review.	39
3.3. Methodology	39
3.3.1. City grid and infrastructure	39
3.3.2. Traffic simulation.	40
3.3.3. Voltage optimization via MLP regression traffic.	40
3.3.4. Voltage smoothing	41
3.3.5. Energy computation	41
3.4. Results	41
3.5. Conclusion	42
3.6. References	43
Chapter 4. Feasibility Study of Integrated Solar and Other Alternative Energy Sources for Hamlet Village Electrification	45
Anil KADLE, Shravankumar NAYAK and Balachandra JOGI	
4.1. Introduction	45
4.2. Methodology of existing system	47
4.2.1. Objectives	47
4.2.2. Method followed	47

4.3. Village model	49
4.3.1. Rural poor house	50
4.3.2. Rural lower-income households	50
4.3.3. Rural middle-income households	51
4.3.4. Rural affluent households	51
4.3.5. Rural enterprises	51
4.4. Rural grid and generation model	53
4.4.1. Rural grid	53
4.4.2. Solar generation model	54
4.4.3. Biomass generation model	55
4.5. Simulation model	56
4.6. Results and discussions	58
4.7. Conclusion and future scope	60
4.8. References	61
Chapter 5. A Review on Pathway for Designing Higher Thermal Conductivity Al–Alloy.	65
Shashidhar M. BANAVASI, Padmayya S. NAIK and Shreethen P. NAIK	
5.1. Introduction	66
5.2. Material and methods	67
5.3. Microstructural evolution and modification	68
5.4. Heat treatment	70
5.5. Electron microscopy, X-ray diffraction and crystallography observation.	71
5.6. Effect of alloying elements	74
5.7. Primary material processing techniques	75
5.8. Surface modification techniques	76
5.9. Theory of thermal conduction of metals	78
5.10. Conclusion	78
5.11. References	79
Part 2. AI for Environmental Sustainability and Climate Analytics.	83
Chapter 6. Computation of Evapotranspiration for Optimal Irrigation of Cucumber in Bhatkal Taluk using Blaney–Criddle Equation.	85
Chidanand G. NAIK and N. VIDYADHAR	
6.1. Introduction	85
6.2. Literature review.	86
6.3. Materials and methods	87
6.3.1. Lysimeter method.	87
6.3.2. Blaney–Criddle method	89

6.4. Results and discussion.	90
6.4.1. Lysimeter method.	90
6.4.2. Blaney–Criddle method	92
6.5. Conclusion	93
6.6. Acknowledgments	93
6.7. References	93
Chapter 7. Machine-Assisted Mathematical Modeling for Climate Variability and Environmental Forecasting	95
Swapnil SHUKLA, Gaurav TAMRAKAR, Manoj Kumar NIGAM and Sandeep ROY	
7.1. Introduction	95
7.2. Related works	96
7.3. Materials and methods	97
7.3.1. Methodology overview.	98
7.4. Results and analysis	99
7.5. Conclusion	101
7.6. References	102
Chapter 8. Environmental Impact Assessment of Industrial Pollution in Al-Harfiyin District.	105
Safaa M. ALMUDHAFAR, Rusul Z. ALMUDHAFAR, Zainab A. ALZURFI and B.A. ALMAYAH	
8.1. Introduction	105
8.2. Area overview	106
8.3. Methodology	108
8.4. Environmental hazards and health impacts	108
8.5. Waste management issues	109
8.6. Soil pollution and chemical analysis	109
8.6.1. Summary of soil characteristics	110
8.7. Environmental assessment summary.	110
8.7.1. Electrical conductivity (EC)	110
8.7.2. Sulfate, calcium and magnesium concentrations.	111
8.7.3. Heavy metals concentrations.	112
8.8. Conclusion	113
8.9. References	114
Chapter 9. Computational Models for Green Supply Chain Optimization and Their Role in Sustainable Business Systems	117
Prabha Seetaram NAIK, Dipti PATNAYAK, Rajesh Kr. YADAV, Ajatashatru SAMAL, Manjula MALLYA and N. Subbu Krishna SASTRY	
9.1. Introduction	117

9.2. Literature survey	118
9.3. Methods	120
9.4. Conclusion	122
9.5. References	123
Chapter 10. Sustainable Business Practices Enabled by AI-Driven Operational Efficiency Models	125
Ankita NIHLANI and Pankaj TIWARI	
10.1. Introduction	125
10.2. Related works	126
10.3. Materials and methods	127
10.4. Results and analysis	128
10.5. Conclusion	130
10.6. References	131
Part 3. Graph Intelligence in Healthcare and Medical Analytics	133
Chapter 11. A Data-Driven Approach to Dyslexia Detection: Evaluating Random Forest and Logistic Regression Models with Questionnaire-Based Features	135
A.GOMATHY, S. VISMAYA, U. SARAN and M. SELVAMURUGAN	
11.1. Introduction	136
11.2. Motivation	137
11.3. Proposed methodology	140
11.3.1. User login and MCQ submission	140
11.3.2. Real-time data collection and preprocessing	140
11.3.3. Model building	141
11.3.4. Training data	141
11.3.5. Evaluation	142
11.3.6. Random Forest algorithm	143
11.4. Experimental setup and results	145
11.5. Discussion	148
11.6. Conclusion and future work	149
11.7. References	149
Chapter 12. Recent Advances in Genes Associated with Aging in Humans and Model Organisms: A Review of Relevant Databases	153
Muthuselvi GOPAL and Daniel Alex ANAND	
12.1. Introduction	153
12.2. Literature review	154
12.3. Materials and methods	155

12.4. Results.	155
12.5. Discussion and conclusion.	158
12.6. References	160
Part 4. Graph Intelligence in Finance and Economics.	163
Chapter 13. AI-Supported Recruitment and Talent Management: Evidence from IT Sector HR Professionals.	165
Atinder KAUR and Tilottama SINGH	
13.1. Introduction.	165
13.2. Literature survey	167
13.3. Objectives.	168
13.4. Methods and material	168
13.4.1. Research design	168
13.4.2. Population and sample	168
13.4.3. Data collection method	168
13.4.4. Analysis tools and techniques	169
13.5. Validity and reliability.	169
13.5.1. Study analysis	169
13.6. Conclusion	171
13.7. References	172
Chapter 14. Synergistic Effects of Digital HR, Martech and FinTech Integration on Organizational Innovation and Performance.	173
D. JOGISH, Ningambika G. METI, S. MANJUNATHA, R. UMESH, S. UDAYA and M. NAYANA	
14.1. Introduction.	173
14.2. Literature survey	175
14.3. Study objectives	178
14.3.1. Hypothesis	179
14.3.2. Research methodology	179
14.3.3. Analysis of descriptive statistics	180
14.3.4. Analysis of hypothesis testing	181
14.4. Conclusion	181
14.5. References	182
List of Authors	185
Index.	191
