Preface	xi
Pushan KUMAR DUTTA and Sonal TRIVEDI	
 Part 1. AI Models, Prediction Systems and Analytics in Education	1
 Chapter 1. Enhancing Student Performance Prediction Using Metaheuristic-optimized SAINT Deep Learning Models	3
Sayed ELKENAWY	
1.1. Introduction	4
1.2. Literature review	6
1.3. Material and methods	8
1.3.1. Dataset description	8
1.3.2. Data preprocessing	11
1.3.3. Deep learning models	14
1.4. Empirical results	15
1.4.1. Baseline model results	15
1.5. Hyperparameter optimization results	18
1.6. Conclusion and future work	21
1.7. Acknowledgments	23
1.8. References	23

**Chapter 2. Enhanced Student Exam Performance Prediction via
Ninja-optimized Neural Ordinary Differential Equation (NODE) . . . 27**

S.K. TOWFEK and Ebrahim A. MATTAR

2.1. Introduction	27
2.1.1. Study contributions	29
2.2. Literature review	30
2.3. Materials and methods	34
2.3.1. Dataset description and preprocessing	34
2.3.2. Data preprocessing	37
2.3.3. DL models	38
2.4. Empirical results	40
2.4.1. Deep learning performance key takeaways	40
2.4.2. Hyperparameter optimization results	42
2.5. Conclusion and future work	46
2.6. Acknowledgments	47
2.7. References	48

**Chapter 3. Intelligent College Placement Prediction Using
a Hybrid FT-Transformer Framework Optimized
by Metaheuristic Algorithms 51**Mahmoud Elshabrawy MOHAMED, Amal H. ALHARBI, Amel Ali ALHUSSAN
and Shahid MAHMOOD

3.1. Introduction	51
3.2. Literature review	55
3.3. Materials and methods	58
3.3.1. Dataset description and preprocessing	58
3.3.2. Data preprocessing	61
3.4. DL models	63
3.4.1. FT-Transformer architecture description	63
3.4.2. Motivation for optimization	64
3.5. Empirical results	64
3.5.1. DL performance: key takeaways	64
3.6. Hyperparameter optimization results	68
3.7. Conclusion and future work	72
3.8. Acknowledgments	73
3.9. References	73

Chapter 4. An Intelligent DeepFM Framework Optimized by Metaheuristic Algorithms for Predicting Students' Adaptability in Online Learning	77
Khaled Sh. GABER, Doaa Sami KHAFAGA, Marwa M. EID and Asifa IQBAL	
4.1. Introduction	78
4.2. Literature review	81
4.3. Materials and methods	87
4.3.1. Dataset description	87
4.3.2. Preprocessing description	89
4.4. Deep learning models	90
4.4.1. Motivation for optimization: substantial improvement with SSO	92
4.5. Empirical results	93
4.5.1. Deep learning performance before optimization	93
4.5.2. Hyperparameter optimization results	96
4.6. Conclusion and future work	100
4.7. Acknowledgments	101
4.8. References	101
 Part 2. Applications and Socio-Economic-Global Perspectives . . .	105
 Chapter 5. AI-Assisted Agricultural Extension: Digital Learning Adoption through Rice Consultation Service for Site-Specific Fertilization in Indonesia	107
Tri MARGONO, Rimarsa Haninnakhonsa MARGONO, Triyani SUMIATI, Rinieta Sausan MARGONO and Koko KUSNANTO	
5.1. Introduction	108
5.2. Conceptual and methodological foundations	109
5.2.1. Conceptual foundations	109
5.2.2. Methodological design	110
5.2.3. Analytical framework: from theory to practice	112
5.3. Results	113
5.3.1. Farmers' learning responses through AI-based extension: overview of respondent characteristics	113
5.3.2. Farmers' responses to the RCS	113
5.3.3. Correlations between farmers' characteristics and learning responses	114
5.3.4. Insights from FGDs	115
5.3.5. SWOT synthesis of AI-assisted learning adoption	115

5.3.6. Theoretical interpretation of empirical trends	116
5.3.7. Synthesis of key findings	117
5.4. Discussion	118
5.4.1. Empirical patterns and diffusion theory	119
5.4.2. Digital learning attributes and pedagogical implications	119
5.4.3. Institutional and social mediation	120
5.4.4. Theoretical and contextual synthesis	121
5.5. Strategic framework	121
5.5.1. Conceptual model	122
5.5.2. Operational strategies	122
5.5.3. SWOT integration	124
5.6. Conclusion and implications	125
5.7. References	126
Chapter 6. AI-Driven Feedback versus Human Touch: A New Frontier in ESL Writing Accuracy	129
Rizgar Qasim MAHMOOD	
6.1. Introduction	129
6.2. Literature review	131
6.2.1. Theoretical framework	131
6.2.2. Teacher feedback	132
6.2.3. AI-driven feedback	133
6.2.4. AI feedback and major concerns	134
6.3. Methodology	135
6.3.1. Participants and setting	135
6.3.2. Data collection and instruments	137
6.3.3. Coding	137
6.3.4. Data analysis	138
6.4. Results	139
6.4.1. The impact of AI-driven and teacher feedback on tense accuracy in ESL learners' writing	139
6.4.2. Learners' perceptions of WCF from AI tools and teachers	142
6.5. Discussion	145
6.6. Conclusion	147
6.7. Limitations and future studies	148
6.8. Acknowledging AI tools and technologies	149
6.9. References	149

Chapter 7. Socioeconomic Transformation of Education in the Era of Industry 5.0 155

V.H. ABDULLAYEV, R.G. ABASZADE and I.X. NORMATOV

7.1. Introduction	155
7.2. Characteristics of Industry 5.0	156
7.3. Directions of socioeconomic transformation in education	158
7.3.1. Renewal of educational programs (competency-based approach)	158
7.3.2. Strengthening STEAM and digital literacy	158
7.3.3. Education aligned with SDGs	158
7.4. New skills required for Industry 5.0	158
7.5. Social impacts	159
7.5.1. Strengthening educational equality	159
7.5.2. Expansion of career opportunities	159
7.5.3. Knowledge exchange between regions	159
7.6. Integration model: university–industry–government cooperation	160
7.7. Conclusion	161
7.8. References	161

Chapter 8. The Role of AI in Virtual Experimentation and Modeling 163

R.G. ABASZADE, V.H. ABDULLAYEV and I.X. NORMATOV

8.1. Introduction	163
8.2. Methodology	166
8.2.1. Chosen approach	166
8.2.2. Building and training the AI model	166
8.2.3. Data preparation and validation methods	166
8.2.4. Description of the virtual experimentation environment	167
8.3. Results and discussion	168
8.3.1. Results of AI-enhanced virtual models	168
8.3.2. Comparison with traditional methods	168
8.3.3. Computational accuracy, time efficiency and adaptability	168
8.3.4. Examples of applications	169
8.4. Conclusion	169
8.5. References	169

Part 3. Ethics and Future Directions	171
 Chapter 9. Reimagining Education through Responsible and Inclusive AI: Synthesis and Future Directions	173
El-Sayed M. EL-KENAWY	
9.1. Introduction	173
9.2. Literature review	177
9.3. Discussion	182
9.4. Conclusion and future work	188
9.5. References	190
 List of Authors	195
 Index	199
