Preface	xi
Devasis PRADHAN	
Acknowledgments	xv
Devasis PRADHAN, Hla MYO TUN, David BANJERDPONGCHAI and Prasenjit CHATTERJEE	
Chapter 1. Detection of Heart Disease and Survival Prediction Using Effective ML Methodologies	1
Sudhir K.	
1.1. Introduction	1
1.2. Types of heart diseases	2
1.3. Diseases overview	3
1.3.1. Challenges and limitations of tests	3
1.3.2. Observations in real world	3
1.4. Methodologies for disease prediction	3
1.4.1. Decision Tree	4
1.4.2. XGBoost.	5
1.4.3. Gradient boosting	6
1.4.4. Multilayer perceptron.	7
1.4.5. Federated learning	8
1.5. Measurements and metrics	8
1.5.1. True positive rate (TPR) and confusion matrix.	8
1.5.2. Specificity and sensitivity	9
1.5.3. Accuracy.	9
1.5.4. Receiver operation curve (ROC) and area under curve (AUC)	9
1.5.5. Recall	10
1.5.6. F-measure and loss function	10
1.5.7. Description of the dataset	11
1.6. Results analysis	11

1.7. Comparison of classification models.	11
1.7.1. AUC plot comparison in classifiers	12
1.8. Conclusion	12
1.9. References	13
Chapter 2. Online Group Purchase Influencing the Customers Buying Decision	15
Kiran L. MANEY, Abhishek VENKTESHWAR and VARALAKSHMI	
2.1. Introduction	15
2.2. Literature review.	17
2.3. Methodology	19
2.4. Hypothesis	20
2.4.1. H1: Social connectedness influences online group purchase	20
2.4.2. H2: Motivation influences online group purchase	21
2.4.3. H3: Trust has a positive influence on online group purchase	21
2.4.4. H4: Online group purchase influences purchase decisions	22
2.5. Conclusion	27
2.6. References	28
Chapter 3. Python-Driven Renko Chart Analysis for Identifying Trends and Selecting Stocks for Medium-Term Trading	33
S. SANDHYA and Hemachandra G.	
3.1. Introduction	33
3.2. Strategic stock selection using fundamental and technical analysis	35
3.2.1. Financial ratios in fundamental analysis	35
3.2.2. Chart patterns in technical analysis	37
3.3. The harsh reality of speculation	37
3.4. Python implementation of Renko charts	38
3.5. Results and discussions	39
3.6. References	43
Chapter 4. Exploring Immersive Data Visualization Techniques: A Comparative Analysis of Interaction Methods	45
Satish KUNBI	
4.1. Introduction	45
4.2. Immersive visualization methods.	47
4.3. Hardware	49
4.4. Interaction technique overview.	50
4.5. Interaction in immersive visualizations	52
4.6. Tools and examples	55
4.7. Discussion	57

4.8. Conclusion	58
4.9. References	59

Chapter 5. The Impact of HR Policies on Employee Satisfaction, Inclusion and Support in Remote Work Settings.

Divya Mableshwar HEGDE and Anandrao Kishan KUMBHAR

5.1. Introduction	63
5.2. Literature review.	65
5.2.1. HR policy adaptation and remote work	65
5.2.2. Inclusive practices in remote work	65
5.2.3. Support systems and work infrastructure	66
5.2.4. Engagement, satisfaction and retention	67
5.3. Objectives	67
5.4. Conceptual model and hypotheses	68
5.5. Methodology	68
5.5.1. Research design and sample	68
5.5.2. Data collection procedure	69
5.5.3. Sample characteristics	69
5.5.4. Measures and instrument development	69
5.6. Results	70
5.6.1. PLS-SEM analysis	70
5.6.2. Measurement model assessment.	71
5.6.3. Structural model results	72
5.6.4. Path coefficients.	72
5.6.5. Indirect effects	73
5.6.6. Total effects	73
5.6.7. PLS-SEM findings	74
5.7. Discussion	74
5.7.1. Toward adaptive and inclusive HR policies	75
5.7.2. Practical implications.	75
5.7.3. Limitations and future research	76
5.8. Conclusion	77
5.9. References	77

Chapter 6. Implementing Incare Product Packaging Development with Augmented Reality (AR) Technology for Gen Z Consumers with Assemblr

Khotop DAKOTI, Muhammad Fajar ARIWIBOWO and JESSICA

6.1. Introduction	81
6.2. Research method.	82
6.3. Results	84

6.4. Conclusion	87
6.5. References	87
Chapter 7. Implementation of Earthquake Disaster Mitigation Simulation at Budi Luhur University: A SWOT Analysis in the Context of Preparedness in High-Rise Buildings.	91
Didik Hariyadi RAHARJO	
7.1. Introduction	91
7.2. Methodology	93
7.3. Results and discussions	94
7.4. Conclusion	95
7.5. Acknowledgments	96
7.6. References	96
Chapter 8. AI and Financial Literacy: Bridging the Knowledge Gap Through Technology	99
Rohith B., Bhavya V.M., Channakeshava H.C. and Dhanalakshmi C.	
8.1. Introduction	100
8.2. Conceptual background	100
8.2.1. Financial literacy	100
8.2.2. AI.	101
8.2.3. Knowledge gap	101
8.3. Literature review.	101
8.3.1. Research gap	102
8.3.2. Research methodology	103
8.3.3. Hypothesis.	103
8.3.4. Data analysis	104
8.3.5. Frequency of AI usage for financial purposes	108
8.4. Analysis of financial attitudes and behavior.	109
8.5. Analysis of AI familiarity and usefulness	110
8.6. Hypothesis testing	111
8.7. Conclusion	113
8.8. References	113
Chapter 9. LGBTQ+ Inclusion in Digital Spaces: A Descriptive Overview	115
Javad GHALAMBOR	
9.1. Introduction	115
9.2. Evolution of LGBTQ+ presence in digital spaces	117
9.2.1. Early digital communities (1990s–2000s)	117

9.2.2. The rise of social media (2010s–present)	118
9.2.3. The role of digital activism.	119
9.3. LGBTQ+ representation in digital media and platforms	120
9.3.1. Social media influence	120
9.3.2. Streaming services and LGBTQ+ content	120
9.3.3. Online LGBTQ+ support networks	121
9.4. Challenges faced by LGBTQ+ individuals in digital spaces	122
9.4.1. Digital discrimination and online harassment	122
9.4.2. Content moderation and censorship issues	122
9.4.3. Privacy and anonymity concerns	123
9.4.4. Access and digital divide.	124
9.5. Digital platforms and inclusivity policies	125
9.5.1. Platform policies on LGBTQ+ inclusion	125
9.5.2. Corporate and institutional support	126
9.5.3. Digital literacy and LGBTQ+ awareness programs	127
9.6. Future of LGBTQ+ inclusion in digital spaces	127
9.6.1. Emerging trends and technologies.	127
9.6.2. Recommendations for enhancing LGBTQ+ digital inclusion.	128
9.7. References	129
Chapter 10. Impact of Generative AI on Students' Mental Well-being: Examining Academic Stress, Ethical Concerns and Cognitive Dependence	135
Lokeshwari D.V. and Rukmini N.	
10.1. Introduction.	136
10.2. Conceptual framework.	137
10.3. Literature review	137
10.3.1. Use of generative AI in education	137
10.4. Academic stress and mental health in students	138
10.5. Effects of generative AI on academic stress	139
10.6. Cognitive and behavioral dependence	139
10.7. Psychological and emotional impact	140
10.8. Methodology	141
10.9. Results.	142
10.10. Suggestions and conclusions.	146
10.11. References	148
Chapter 11. Aligning Corporate Goals with Environmental and Social Impact: A Study of Sustainable CSR Practices in Selected Indian IT Companies	151
Pushpalatha P., Jalaja K.R. and Geetha P.	
11.1. Introduction.	151

11.2. A new era in CSR: new leadership and urgent action	152
11.2.1. Objectives	153
11.2.2. Methodology	153
11.2.3. Hypothesis	153
11.3. TCS Limited and its CSR spending.	154
11.4. Infosys.	154
11.5. HCL Foundation and corporate social responsibility (CSR) philosophy.	155
11.6. Corporate social responsibility projects in action	155
11.7. Wipro CSR initiatives	155
11.8. LTIMindtree and its corporate social responsibility.	156
11.8.1. Corporate social responsibility: ESG-like mechanism in India	158
11.8.2. Key metrics of ESG	161
11.9. Conclusion	161
11.10. References	162
Chapter 12. Traversing Innovative Leadership with Data-Driven Decision-making by Organizational Diagnosis: A Descriptive Study among SMEs in the UAE	163
Parameswaran HIMA	
12.1. Introduction	164
12.1.1. Study importance	165
12.1.2. Objectives	166
12.2. Theoretical background and formulation of hypotheses	167
12.2.1. Innovative leadership	167
12.2.2. Diagnostic processes	168
12.2.3. Entrepreneurship.	169
12.3. Methodology	170
12.3.1. Qualitative and quantitative data	170
12.3.2. Sampling procedure	171
12.3.3. Measurements and tests	171
12.4. Analysis of data	172
12.4.1. Confirmatory factor analysis	172
12.4.2. Hypothesis test.	176
12.5. Findings and recommendations	176
12.6. Conclusion	179
12.6.1. Chapter limitations	180
12.6.2. Future scope	180
12.7. References	181
List of Authors	185
Index.	189
