|--|-----|
| <b>Foreword: Additive Manufacturing: From 3D Printing to Bio-printing</b> . . . . .        | vii |
| <b>Introduction to Volume 2</b> . . . . .  | xi  |
| <b>Chapter 1. Socially Responsible Research (SRR)</b> . . . . .                            | 1   |
| 1.1. Introduction. . . . .   | 2   |
| 1.2. Setting the scene . . . . .   | 5   |
| 1.2.1. Decision-making and ethics. . . . .   | 11  |
| 1.2.2. Technological progress: the researcher and the risks . . . . .                      | 19  |
| 1.2.3. Scapegoating . . . . .  | 29  |
| 1.3. Modes of action . . . . .   | 39  |
| 1.3.1. The project framework: socially responsible research . . . . .                      | 42  |
| 1.3.2. Other considerations . . . . .  | 44  |
| 1.3.3. Socially responsible research . . . . .   | 46  |
| 1.3.4. A few examples . . . . .  | 53  |
| 1.3.5. Authoritarian constraint . . . . .  | 60  |
| 1.4. Provisional conclusion . . . . .  | 65  |
| 1.5. Conclusion: from the 12 “Labors of Hercules” to the 12 “death valleys” . . . . .      | 67  |
| 1.6. References . . . . .  | 72  |
| <b>Chapter 2. 3D, 4D and Bio-printing Innovations and Additive Manufacturing</b> . . . . . | 91  |
| 2.1. Introduction. . . . .   | 92  |
| 2.2. Additive manufacturing or 3D printing . . . . .                                       | 94  |

---

|  |     |
|--|-----|
| 2.2.1. Invention of the additive manufacturing concept . . . . .   | 96  |
| 2.2.2. “In-house” activities . . . . .                             | 103 |
| 2.3. Reaching out to society . . . . .                             | 106 |
| 2.4. Consequences . . . . .  | 111 |
| 2.5. 4D printing . . . . .   | 113 |
| 2.5.1. Reminders about 4D printing . . . . .                       | 117 |
| 2.5.2. Gaps between paradigms . . . . .                            | 125 |
| 2.5.3. Conclusion . . . . .  | 127 |
| 2.6. Bio-printing. . . . .   | 129 |
| 2.6.1. Principle of bio-printing . . . . .                         | 130 |
| 2.7. Discussion . . . . .  | 138 |
| 2.8. Conclusion . . . . .  | 142 |
| 2.9. References . . . . .  | 147 |
| <br>   |     |
| <b>Chapter 3. Creativity and Additive Manufacturing.</b> . . . . . | 161 |
| 3.1. Toward a Big Bang of creativity . . . . .                     | 162 |
| 3.1.1. Background and theoretical considerations. . . . .          | 163 |
| 3.1.2. Introduction . . . . .                                      | 164 |
| 3.1.3. Just before the idea . . . . .                              | 166 |
| 3.1.4. Clarification . . . . .                                     | 170 |
| 3.1.5. The question of finalized knowledge integration . . . . .   | 175 |
| 3.1.6. What interdisciplinarity to call upon? . . . . .            | 178 |
| 3.1.7. Grains of sand in the clarification process . . . . .       | 179 |
| 3.1.8. Conclusion. . . . .   | 183 |
| 3.2. A comparison with 3D, 4D and bio-printing . . . . .           | 186 |
| 3.2.1. Additive manufacturing . . . . .                            | 187 |
| 3.2.2. 4D printing. . . . .  | 191 |
| 3.2.3. Bio-printing . . . . .                                      | 198 |
| 3.3. Conclusion . . . . .  | 202 |
| 3.4. References . . . . .  | 205 |
| <br>   |     |
| <b>Conclusion.</b> . . . . .                                       | 215 |
| <br>   |     |
| <b>Index</b> . . . . .   | 227 |
