<b>Preface</b> . . . . .	xi
Joël PRIOLON	
<b>Introduction</b> . . . . .	xiii
Joël PRIOLON	
<b>Chapter 1. General Observations on the Physical Trading of Commodities</b> . . . . .	1
Joël PRIOLON	
1.1. The standardization of commodities and commercial contracts . . . . .	1
1.2. Price volatility of commodities . . . . .	3
1.2.1. Elasticity . . . . .	5
1.2.2. King's law . . . . .	6
1.3. Important actors in the trading of agricultural commodities . . . . .	8
1.3.1. Enterprises trading in agricultural commodities . . . . .	8
1.3.2. Business banks . . . . .	10
1.3.3. States and the trading of agricultural commodities . . . . .	10
1.4. Physical markets and financial markets . . . . .	11
<b>Chapter 2. The Financial Commodity Markets</b> . . . . .	13
Joël PRIOLON	
2.1. A financial instrument is a security or a contract that generates a series of financial flows . . . . .	13
2.2. Physical markets and derivative financial markets . . . . .	15

2.2.1. Physical commodity markets . . . . .	15
2.2.2. Organized financial markets of commodities . . . . .	16
2.3. Large financial operations . . . . .	19
2.3.1. Arbitrage . . . . .	19
2.3.2. Speculation on price increases . . . . .	20
2.3.3. Hedging . . . . .	22
2.3.4. Physical transactions and financial transactions . . . . .	23
<b>Chapter 3. Futures Contracts and Forward Contracts . . . . .</b>	<b>25</b>
Joël PRIOLON	
3.1. Futures markets in 2013 and 2014 . . . . .	26
3.2. Derivative markets in 2016 . . . . .	27
3.3. An overview of futures contracts . . . . .	27
3.3.1. Notations . . . . .	27
3.3.2. Gains and losses at the maturity of an elementary operation	29
3.3.3. Closing a position before maturity . . . . .	32
3.4. Arbitrage operations and conditions for no arbitrage . . . . .	32
3.4.1. An elementary example of arbitrage through replication . .	33
3.4.2. A formal definition of NA . . . . .	34
3.5. Hedging operations . . . . .	35
3.5.1. An elementary example of hedging . . . . .	36
3.5.2. A model for an optimal hedge . . . . .	40
3.6. Speculation . . . . .	42
3.6.1. Speculation and hedging, a model for the optimal position .	42
3.7. Forward contracts . . . . .	45
3.8. The pricing of futures and forwards . . . . .	46
3.8.1. The bases of the Black model . . . . .	46
3.8.2. The dynamic of futures prices . . . . .	50
3.9. Commodity swaps . . . . .	52
3.9.1. Definition and example . . . . .	52
3.9.2. Pricing a swap . . . . .	54
<b>Chapter 4. The Storage and Term Structure of Commodity Futures Prices . . . . .</b>	<b>55</b>
Christophe GOUEL	
4.1. Essential concepts . . . . .	56
4.1.1. Uncertainty, spreads and future markets . . . . .	56
4.2. Normal backwardation . . . . .	58

4.2.1. The diversity of hedgers on futures markets . . . . .	59
4.2.2. The empirical scope of the normal backwardation theory . .	62
4.3. The theory of storage . . . . .	62
4.3.1. Some fundamental concepts . . . . .	62
4.3.2. The theory of storage with occasional stockouts . . . . .	63
4.3.3. Spread and storage . . . . .	65
4.3.4. The concept of convenience yield . . . . .	69
4.4. Futures markets and price volatility . . . . .	70
4.4.1. Hedging and volatility . . . . .	71
4.4.2. Futures markets and information . . . . .	71
4.5. Conclusion . . . . .	72
<b>Chapter 5. Options Markets</b> . . . . .	<b>73</b>
Christophe DOURSAT and Joël PRIOLON	
5.1. The fundamental concepts . . . . .	73
5.1.1. Characteristics of options and a glossary . . . . .	74
5.1.2. The life of an options contract on an exchange . . . . .	75
5.1.3. The risk of gain and the risk of loss on elementary strategies . . . . .	78
5.2. The determinants of the value of an option, the pricing of options . . . . .	81
5.2.1. The general principle behind the pricing of options . . . . .	82
5.2.2. Pricing options and choosing a model . . . . .	83
5.3. Models for estimating the value of an option . . . . .	84
5.3.1. The one-period CRR pricing model . . . . .	84
5.3.2. The BS model . . . . .	87
5.3.3. The origin of the BS model, the Arrow–Debreu model and the concept of the complete market . . . . .	88
5.3.4. Four propositions . . . . .	89
5.4. An example of a commodity option traded on an exchange . . .	91
5.5. Conclusion . . . . .	92
<b>Chapter 6. A Selective Review of Classic Literature in Economics</b> . . . . .	<b>95</b>
Joël PRIOLON	
6.1. Holbrook Working . . . . .	96
6.1.1. Definitions . . . . .	96
6.1.2. Hedging possibilities in Kansas city in 1951–1952 . . . . .	97

6.1.3. Reinterpreting hedging . . . . .	100
6.1.4. Price fluctuations . . . . .	100
6.1.5. Other work related to Working's model . . . . .	101
6.2. Leland L. Johnson . . . . .	104
6.2.1. The model . . . . .	104
6.2.2. A graphical interpretation of the model . . . . .	106
6.3. Jerome L. Stein: cash price and future price . . . . .	109
6.3.1. The choice of hedging or not hedging stocks . . . . .	109
6.3.2. The supply of and demand for stocks and balance on the physical market . . . . .	111
6.3.3. Supply and demand of futures contracts and equilibrium on the financial market . . . . .	113
6.3.4. Simultaneous equilibrium on the spot and futures markets . . . . .	114
6.4. Conclusion . . . . .	115
<b>Chapter 7. A Very Selective Review of Modern Literature in Economics . . . . .</b>	<b>117</b>
Joël PRIOLON	
7.1. The price dynamics for cash prices and future prices – a theoretical approach . . . . .	117
7.1.1. The first case: there is no futures market . . . . .	118
7.1.2. Second case: a futures market is opened . . . . .	124
7.2. Market failure: the basis does not always cancel itself out at maturity . . . . .	125
7.2.1. The model . . . . .	125
7.3. An example of the destabilizing effect of optional hedging . . . . .	129
7.3.1. Delta-hedging . . . . .	129
7.3.2. An elementary example . . . . .	130
7.3.3. Intuition . . . . .	131
7.3.4. Graphical analysis of delta-hedging . . . . .	131
7.4. Conclusion . . . . .	133
<b>Chapter 8. Questions Surrounding Regulation . . . . .</b>	<b>135</b>
Joël PRIOLON	
8.1. Dilemmas surrounding regulation . . . . .	135
8.1.1. Organized financial markets are governed by strict regulations on the judicial level . . . . .	136
8.1.2. Physical markets have very little regulation . . . . .	136

8.2. A broad overview of the evolution of regulation . . . . .	136
8.2.1. Regulation within the framework of the European Union . . .	137
8.2.2. Regulation in the United States . . . . .	138
8.2.3. The role of the IOSCO . . . . .	139
8.3. High-frequency trading: a burning question . . . . .	140
8.3.1. Algorithmic trading . . . . .	140
8.3.2. High-frequency trading . . . . .	141
8.3.3. HFT and the risk of manipulation of the market . . . . .	143
8.4. Conclusion . . . . .	144
<b>Appendix</b> . . . . .	145
