<b>Preface</b> . . . . .	xv
<b>Chapter 1. Integrating Direct and Reverse Logistics in a “Living Lab” Context: Evaluating Stakeholder Acceptability and the Potential of Gamification to Foster Sustainable Urban Freight Transport</b> . . . . .	1
Valerio GATTA, Edoardo MARCUCCI, Michela LE PIRA and Andrea CICCORELLI	
1.1. Introduction . . . . .	1
1.2. CITYLAB: city logistics in living laboratories . . . . .	4
1.2.1. Integrating direct and reverse logistics in a living lab context: the case of Rome . . . . .	5
1.2.2. The role of gamification to foster sustainable urban freight transport . . . . .	7
1.3. Data/methodology . . . . .	8
1.3.1. Plastic cap collection at the University of Roma Tre . . . . .	8
1.3.2. Stated choice experiments . . . . .	10
1.3.3. Discrete choice models . . . . .	11
1.4. Results . . . . .	11
1.4.1. Policy implications . . . . .	16
1.5. Conclusion . . . . .	17
1.6. Acknowledgements . . . . .	17
1.7. Bibliography . . . . .	18

---

<b>Chapter 2. Optimizing the Establishment of a Central City Transshipment Facility to Ameliorate Last-Mile Delivery: a Case Study in Melbourne CBD</b> . . . . .	23
Khalid ALJOHANI and Russell G. THOMPSON	
2.1. Introduction . . . . .	23
2.2. Literature review. . . . .	25
2.2.1. Recent trends and challenges affecting last-mile delivery. . . . .	25
2.2.2. Operational challenges in last-mile freight in the central city area . . . . .	26
2.2.3. Establish small-scale logistics facilities in the central city area . . . . .	26
2.3. Overview of methodology . . . . .	28
2.4. Results and analysis of the observational study of loading activities in Melbourne CBD . . . . .	28
2.5. Framework to establish Central City Transshipment Facility in the central city area. . . . .	35
2.5.1. Description of framework . . . . .	35
2.5.2. Stages of integrated framework . . . . .	36
2.6. Conclusion . . . . .	43
2.7. Bibliography . . . . .	43
<b>Chapter 3. Simulation of a City Logistics Solution for Montreal</b> . . . . .	47
Marguerite SIMO, Teodor Gabriel CRAINIC and Yvon BIGRAS	
3.1. Introduction . . . . .	47
3.2. Literature review. . . . .	48
3.2.1. Different types of model classification . . . . .	48
3.2.2. Different models for urban freight. . . . .	49
3.3. Methodology . . . . .	51
3.3.1. The initial national model . . . . .	51
3.3.2. Modifying model . . . . .	53
3.4. Results . . . . .	56
3.4.1. Base case scenario . . . . .	56
3.4.2. Scenario 1 . . . . .	57
3.4.3. Scenario 2 . . . . .	58
3.4.4. Scenario 3 . . . . .	59
3.5. Conclusion . . . . .	61
3.6. Acknowledgements . . . . .	61
3.7. Bibliography . . . . .	62

<b>Chapter 4. Simulation Applied to Urban Logistics: A State of the Art</b> . . . . .	65
Sarrah Jlassi, Simon Tamayo and Arthur Gaudron	
4.1. Introduction . . . . .	65
4.1.1. Modeling versus simulation . . . . .	66
4.2. Research method. . . . .	67
4.3. Analytical framework . . . . .	72
4.3.1. Simulation techniques used in different types of problems . . . . .	72
4.3.2. Software solutions . . . . .	80
4.3.3. Research opportunities . . . . .	80
4.4. Conclusion . . . . .	81
4.5. Acknowledgements . . . . .	83
4.6. Bibliography . . . . .	83
<b>Chapter 5. Can the Crowd Deliver? Analysis of Crowd Logistics' Types and Stakeholder Support</b> . . . . .	89
Heleen Buldeo Rai, Sara Verlinde, Jan Merckx and Cathy Macharis	
5.1. Introduction . . . . .	89
5.2. Literature review. . . . .	91
5.3. Methodology . . . . .	94
5.4. Results . . . . .	96
5.5. Conclusion . . . . .	103
5.6. Acknowledgements . . . . .	104
5.7. Bibliography . . . . .	105
<b>Chapter 6. Preliminary Investigation of a Crowdsourced Package Delivery System: A Case Study</b> . . . . .	109
Sudheer Ballare and Jane Lin	
6.1. Introduction . . . . .	109
6.2. Overview of the case study . . . . .	111
6.2.1. Types of delivery service. . . . .	111
6.2.2. Pricing model . . . . .	112
6.3. Research questions . . . . .	113
6.3.1. Data . . . . .	114
6.3.2. Analysis findings . . . . .	117
6.4. Further discussion . . . . .	123
6.4.1. Market opportunities . . . . .	123
6.4.2. Qualitative assessment of service . . . . .	124
6.5. Conclusion . . . . .	125
6.6. Acknowledgements . . . . .	125
6.7. Bibliography . . . . .	126

---

<b>Chapter 7. Concepts of an Integrated Platform for Innovative City Logistics with Urban Consolidation Centers and Transshipment Points</b> . . . . .	129
Eiichi TANIGUCHI, Rémy DUPAS, Jean-Christophe DESCHAMPS and Ali Gul QURESHI	
7.1. Introduction . . . . .	129
7.2. Concepts of integrated platform for city logistics. . . . .	130
7.3. Surveys on opinions about UCC and transshipment . . . . .	132
7.3.1. Questionnaire . . . . .	132
7.3.2. Results . . . . .	133
7.4. Urban consolidation centers in Tokyo and Bordeaux. . . . .	137
7.4.1. UCC in Tokyo. . . . .	137
7.4.2. UCC in Bordeaux. . . . .	139
7.5. Implementation issues. . . . .	141
7.6. Conclusion . . . . .	144
7.7. Acknowledgements . . . . .	145
7.8. Bibliography . . . . .	145
<b>Chapter 8. E-Consumers and Their Perception of Automated Parcel Stations</b> . . . . .	147
Sara VERLINDE, César ROJAS, Heleen BULDEO RAI, Bram KIN and Cathy MACHARIS	
8.1. Introduction . . . . .	147
8.2. Literature review. . . . .	149
8.3. Methodology . . . . .	151
8.4. Results . . . . .	154
8.4.1. Delivery preferences of online consumers . . . . .	154
8.4.2. Attitude toward automated parcel stations . . . . .	155
8.4.3. Expectations and use of automated parcel stations. . . . .	155
8.5. Conclusion . . . . .	157
8.6. Bibliography . . . . .	158
<b>Chapter 9. Loading/Unloading Space Location and Evaluation: An Approach through Real Data</b> . . . . .	161
Simon TAMAYO, Arthur GAUDRON and Arnaud DE LA FORTELLE	
9.1. Introduction . . . . .	161
9.2. Proposed approach. . . . .	163
9.2.1. Data collection . . . . .	164
9.2.2. Demand generation . . . . .	165
9.2.3. Optimization model. . . . .	168

9.3. Application and findings . . . . .	173
9.3.1. Data collection and demand generation . . . . .	173
9.3.2. Location of 10 L/U spaces if there are no prior spaces in the area . . . . .	174
9.3.3. Location of two new L/U spaces taking into account the existing spaces . . . . .	175
9.3.4. Evaluation of the existing L/U spaces in the area . . . . .	176
9.4. Conclusion . . . . .	177
9.5. Acknowledgements . . . . .	178
9.6. Bibliography . . . . .	178
<b>Chapter 10. Understanding Road Freight Movements in Melbourne</b> . . . . .	181
Loshaka PERERA, Russell G. THOMPSON and Yiqun CHEN	
10.1. Introduction . . . . .	181
10.2. Data . . . . .	183
10.2.1. Comprehensive freight data . . . . .	183
10.2.2. Land-use data . . . . .	184
10.2.3. Employment data . . . . .	185
10.3. Analysis, results and discussion . . . . .	185
10.3.1. General descriptive analysis . . . . .	185
10.3.2. Test of independence . . . . .	192
10.3.3. Regression analysis . . . . .	194
10.3.4. Freight vehicle cost analysis . . . . .	197
10.4. Conclusion . . . . .	198
10.5. Future work . . . . .	199
10.6. Bibliography . . . . .	199
<b>Chapter 11. High-Resolution Last-Mile Network Design</b> . . . . .	201
Daniel MERCHÁN and Matthias WINKENBACH	
11.1. Introduction . . . . .	201
11.2. Literature review . . . . .	202
11.3. Network circuitry in last-mile logistics . . . . .	203
11.3.1. Circuitry factors . . . . .	203
11.3.2. Empirical analysis for São Paulo . . . . .	204
11.4. Model for two-echelon network design . . . . .	206
11.5. Case study . . . . .	209
11.6. Conclusion . . . . .	212
11.7. Bibliography . . . . .	212

<b>Chapter 12. Cooperative Models for Addressing Urban Freight Challenges: The NOVELOG and U-TURN Approaches</b> . . . . .	215
Maria RODRIGUES, Eleni ZAMPOU, Vasilis ZEIMPEKIS, Alexander STATHACOPOULOS, Tharsis TEOH and Georgia AYFANTOPOULOU	
12.1. Introduction . . . . .	215
12.2. Business models in the UFT environment . . . . .	217
12.3. Need for cooperative business models in the evolving UFT environment . . . . .	219
12.3.1. The approach of NOVELOG . . . . .	219
12.3.2. The case of Turin . . . . .	221
12.3.3. The approach of U-TURN . . . . .	224
12.4. Conclusions . . . . .	232
12.5. Bibliography . . . . .	233
<b>Chapter 13. The Capacity of Indonesian Logistics Service Providers in Information and Communication Technology Adoption.</b> . . . . .	235
Kuncoro Harto WIDODO, Joewono SOEMARDJITO and Yandra Rahardian PERDANA	
13.1. Introduction . . . . .	235
13.2. Literature review . . . . .	237
13.2.1. ICT as an essential logistics performance . . . . .	237
13.2.2. The role of ICT in city logistics . . . . .	238
13.2.3. ICT platforms and innovation in logistics . . . . .	240
13.2.4. Impact of ICT adoption . . . . .	241
13.3. Method . . . . .	242
13.4. Results . . . . .	243
13.5. Conclusion . . . . .	246
13.6. Bibliography . . . . .	246
<b>Chapter 14. An Explorative Approach to Freight Trip Attraction in an Industrial Urban Area</b> . . . . .	249
Elise CASPERSEN	
14.1. Introduction . . . . .	249
14.2. Background . . . . .	251
14.3. Data from establishments in Groduddalen . . . . .	252
14.3.1. Industry classification . . . . .	254
14.4. Estimating freight trip generation models . . . . .	256
14.4.1. FTA model functional form . . . . .	257
14.4.2. Model extension with establishment and shipment characteristics . . . . .	261
14.5. Conclusion . . . . .	264
14.6. Bibliography . . . . .	266

<b>Chapter 15. Choice of Using Distribution Centers in the Container Import Chain: a Hybrid Model Correcting for Missing Information</b> . . . . .	269
Elnaz IRANNEZHAD, Carlo G. PRATO and Mark HICKMAN	
15.1. Introduction . . . . .	270
15.2. Methods . . . . .	271
15.2.1. Data . . . . .	271
15.2.2. Model formulation . . . . .	274
15.2.3. Model specification . . . . .	276
15.3. Results . . . . .	277
15.4. Conclusions . . . . .	279
15.5. Acknowledgements . . . . .	279
15.6. Bibliography . . . . .	279
<b>Chapter 16. Applying Gamification to Freight Surveys: Understanding Singapore Truck Drivers' Preferences</b> . . . . .	281
Fangping LU and Lynette CHEAH	
16.1. Introduction . . . . .	281
16.2. Gamification process . . . . .	283
16.2.1. What is gamification? . . . . .	283
16.2.2. Gamification design methods . . . . .	284
16.3. Prototypes and testing . . . . .	287
16.4. Conclusion . . . . .	293
16.5. Acknowledgements . . . . .	295
16.6. Bibliography . . . . .	296
<b>Chapter 17. Urban Distribution of Craft-Brewed Beer in the Belo Horizonte Metropolitan Area</b> . . . . .	299
Renata Lúcia Magalhães DE OLIVEIRA, Patrick Mendes dos SANTOS, Jonathan REITH, Julia Almeida COSTA and Leise Kelli DE OLIVEIRA	
17.1. Introduction . . . . .	299
17.2. The urban distribution of beer . . . . .	301
17.3. Study area: Belo Horizonte Metropolitan Area . . . . .	303
17.4. Methodological approach . . . . .	304
17.4.1. Data collection and spatialization . . . . .	305
17.4.2. Descriptive analysis of the consumer profile . . . . .	307
17.4.3. Logistics network design . . . . .	307
17.5. Results and discussions . . . . .	309
17.5.1. Descriptive analysis of the consumer profile . . . . .	310
17.5.2. Logistics network design . . . . .	311

17.6. Conclusion . . . . .	313
17.7. Acknowledgements . . . . .	314
17.8. Bibliography . . . . .	314

**Chapter 18. Issues and Challenges in Urban Logistics Planning in Indonesia** . . . . . 317

Kuncoro Harto WIDODO, Danang PARIKESIT, Hengki PURWOTO,  
Joewono SOEMARDJITO and ERIADI

18.1. Introduction . . . . .	317
18.2. Identifying urban logistics challenges . . . . .	318
18.2.1. Urban growth and urbanization . . . . .	318
18.2.2. E-commerce growth . . . . .	319
18.2.3. Space conflict . . . . .	320
18.2.4. Traffic density congestion . . . . .	321
18.2.5. Readiness for agents/operators . . . . .	322
18.2.6. Readiness for logistics regulation . . . . .	323
18.2.7. Environmental, geographical and disasters issues . . . . .	323
18.3. Implementation of city logistics in Indonesia . . . . .	325
18.4. Acknowledgements . . . . .	326
18.5. Bibliography . . . . .	326

**Chapter 19. From City Logistics Theories to City Logistics Planning** . . . . . 329

Francesco RUSSO and Antonio COMI

19.1. Introduction . . . . .	329
19.2. The state of the art . . . . .	331
19.2.1. Methods and models . . . . .	331
19.2.2. City logistics plans . . . . .	333
19.2.3. Goals . . . . .	334
19.3. The interconnected processes to study and to implement city logistics . . . . .	335
19.4. The city logistics plan definition . . . . .	336
19.4.1. Empirical data driving city logistics theories and the plan design. . . . .	337
19.4.2. City logistics measures . . . . .	337
19.4.3. Grant for start-up . . . . .	341
19.5. Conclusions . . . . .	343
19.6. Bibliography . . . . .	343

---

<b>Chapter 20. Strategies to Improve Urban Freight Logistics in Historical Centers: the Cases of Lisbon and Mexico City</b> . . . . .	349
Juan Pablo ANTÚN, Vasco REIS and Rosário MACÁRIO	
20.1. Introduction . . . . .	349
20.2. Objectives . . . . .	351
20.3. Methodology . . . . .	352
20.4. Trends in corporate logistics for urban goods distribution . . . . .	352
20.5. Urban logistics in historical centers. . . . .	353
20.5.1. Complexity of the physical distribution of goods in Historical Centers and Central Districts of cities. . . . .	353
20.5.2. Priority areas of intervention for public policies to improve Urban Logistics in Historical Centers and Central Districts of cities . . . . .	354
20.6. Parallelisms and contrasts in logistic practices in the Historical Centers of the city of Mexico and Lisbon . . . . .	356
20.6.1. Trends in logistics practices . . . . .	356
20.6.2. Logistics impact of pre-selling . . . . .	357
20.6.3. Size and technology of urban freight vehicles . . . . .	358
20.6.4. Logistics Platforms: DLP and OC . . . . .	359
20.7. Experimental proposals for the Historical Center of Lisbon . . . . .	360
20.7.1. Characteristics of the Historic Center of Lisbon . . . . .	360
20.7.2. Period of operation of deliveries to the HORECA sector . . . . .	361
20.7.3. Experimental proposals to improve the logistics of distribution of goods, with particular reference to the HORECA sector, at the Historic Districts of Lisbon . . . . .	361
20.8. Conclusions . . . . .	365
20.9. Bibliography . . . . .	365
<b>List of Authors</b> . . . . .	367
<b>Index</b> . . . . .	371
