About This Book	ix
Introduction	xv
Chapter 1. Operational Research Using a Spreadsheet	1
1.1. Foreword	1
1.2. Dynamic programming	1
1.3. Scheduling	6
1.3.1. Critical path calculation matrix	7
1.3.2. Classic Gantt chart	11
1.3.3. Gantt chart with a calendar	17
1.4. Maximal flows	23
1.5. Transport model	29
1.5.1. Customer delivery	30
1.5.2. Minimum-cost transport	33
1.6. Linear programming	36
1.6.1. Creating a calculation table	36
1.6.2. Entering data	37
1.6.3. Using the solver	38
Chapter 2. Dashboards, Spreadsheets and Pivot Tables	41
2.1. Spreadsheets: a versatile tool	41
2.2. Example database	42
2.2.1. Calculated field and formatting	43
2.2.2. Calendar sections, rankings and averages	47
2.2.3. Conditional calculated fields	50

2.2.4. Slicers, filtering and calculated fields.	53
2.2.5. Calculated items	58
2.3. Multiple databases.	61
2.3.1. New tables for the database	62
2.3.2. Creating data tables.	64
2.3.3. Relationships between tables	65
2.3.4. Using multiple tables to create a pivot table	67
2.4. Limits and constraints with calculated fields	69
2.5. Conclusion	72
Chapter 3. Scheduling and Planning	
Using a Project Manager	73
3.1. Reminders and information	73
3.2. Example: designing and building a machine-tool	74
3.2.1. Scenario	74
3.2.2. Creating and configuring the project	77
3.2.3. Entering tasks and durations	80
3.2.4. Entering predecessors	81
3.2.5. MPM network visualization.	82
3.2.6. Calculating slacks.	83
3.2.7. Entering resources	84
3.2.8. Allocating resources	86
3.2.9. Resolving over-allocations	88
3.2.10. Viewing the project timeline	92
3.2.11. Using WBS coding	92
3.2.12. Generating dashboards and reports.	94
3.3. Project monitoring.	97
3.4. Conclusion	99
Chapter 4. Road Traffic Simulation	101
4.1. Before we start.	101
4.2. Ring road	102
4.2.1. A simulation example	103
4.3. RoadTrafficSimulator.	104
4.3.1. Constructing a model.	106
4.3.2. Activating the simulation from the model	108
4.4. Intersection simulator	109
4.5. Green Light District (GLD)	115
4.5.1. GLD compilation	116
4.5.2. Launching the GLD	117
4.5.3. The editor toolbar.	119

4.5.4. An example using GLD	121
4.6. AnyLogic	144
4.6.1. Downloading AnyLogic	144
4.6.2. Our example	145
4.6.3. A last word on AnyLogic	165
4.7. Conclusion	165
Conclusion	167
Appendices	171
Appendix 1	173
Appendix 2	181
Glossary	187
Bibliography	193
Index	201
