Preface	ix
Chapter 1. The KM Project in an Organization	1
1.1. Articulation of Chapter 1	1
1.2. Knowledge management	2
1.3. A reference framework for a knowledge-based KM	6
1.3.1. Knowledge-based KM	6
1.4. The virtuous cycle of knowledge	10
1.4.1. Step 1: analysis of a knowledge capital and development of a KM plan	10
1.4.2. Step 2: organization of knowledge resources	11
1.4.3. Step 3: implementation of KM processes	12
1.4.4. Step 4: evolution of a knowledge capital	12
1.5. The MASK method	12
1.5.1. MASK II: analysis of a knowledge capital	13
1.5.2. MASK I: capitalization of a knowledge corpus	15
1.5.3. MASK III: sharing the knowledge base	16
1.5.4. MASK IV: evolution of a knowledge capital	19
1.6. The KM process repository	22
1.7. Critical success factors for a global KM project	23
1.7.1. The water lily strategy	24
1.7.2. Key stages of change	27
1.8. Overview	30

Chapter 2. Strategic Analysis of an Organization's Knowledge Capital	33
2.1. Articulation of Chapter 2	33
2.2. Introduction to the strategic analysis of knowledge capital	33
2.2.1. Step 1: analysis of critical capacities	34
2.2.2. Step 2: analysis of critical knowledge	34
2.2.3. Step 3: strategic alignment	35
2.2.4. Step 4: developing the action plan	35
2.2.5. The knowledge criticality analysis grid	36
2.3. Chronopost: observing professions	37
2.3.1. Presentation of the company	38
2.3.2. Project context	38
2.3.3. Objectives	41
2.3.4. Approach adopted	41
2.3.5. Procedure.	43
2.3.6. Strategic alignment	53
2.3.7. Project assessment	55
2.3.8. Lessons learned	56
2.3.9. Conclusion.	57
2.4. Hydro-Québec	57
2.4.1. Introduction	57
2.4.2. Presentation of Hydro-Québec	57
2.4.3. Presentation of the study conducted and the principles of the method used	58
2.4.4. Implementation of the method at Hydro-Québec	59
2.4.5. Conclusion.	67
2.5. The IPEN's Radiopharmacy Center	68
2.5.1. Presentation of the study.	68
2.5.2. The progress of the KM project	72
2.6. Sonatrach	79
2.6.1. Introduction	79
2.6.2. Method used	80
2.6.3. Strategic analysis	81
2.6.4. Analysis of professional knowledge	84
2.6.5. Conclusion.	87
2.7. Lessons learned from the four case studies	88
Chapter 3. Capitalizing on the Organization's Knowledge	89
3.1. Articulation of Chapter 3	89
3.2. Introduction to knowledge capitalization	89

3.3. The case of INRS: a consulting approach to improve safety when using woodworking machines	94
3.3.1. Introduction	95
3.3.2. Analysis of a reported incident or accident on a woodworking machine	97
3.3.3. The dangers of woodworking machines	100
3.3.4. Classification of woodworking machines.	102
3.3.5. History of INRS' involvement in the safety of woodworking machines	103
3.3.6. Conclusion.	105
3.4. The case of code systems: knowledge books for code management and code control	106
3.4.1. Introduction	106
3.4.2. Reference framework for the development and use of codes	107
3.4.3. Two new ways to manage knowledge on codes	109
3.4.4. Example of an Euler buckling code	112
3.4.5. Example of the description of an option in a code.	114
3.4.6. Conclusion and perspectives	118
3.5. The IRSN case	118
3.5.1. Introduction	118
3.5.2. Knowledge book process	120
3.5.3. Examples of knowledge books	121
3.5.4. Feedback on the production of knowledge books	137
3.5.5. Problem linked to the dissemination of knowledge books	139
3.5.6. Problem of the evolution of knowledge books.	139
3.5.7. Perspectives	140
3.6. Lessons learned from case studies	141
References	143
Index	147
