<b>Introduction</b> . . . . .	ix
<b>Part 1. The First Cultures in a Context of High Climate Instability</b> . . . . .	1
<b>Chapter 1. Migration and Creativity: What Roles do They Play During Climate Change?</b> . . . . .	3
1.1. A necessary evil . . . . .	3
1.1.1. The methodological challenge of a global history . . . . .	4
1.1.2. Denial or a mandate from heaven . . . . .	5
1.2. Cultures and climatic gradient . . . . .	6
1.3. The conquest of ubiquity . . . . .	12
1.4. Migration: capacity or necessity? . . . . .	15
1.4.1. <i>H. ergaster</i> 's African exits . . . . .	16
1.4.2. The African exits of anatomically modern humans . . . . .	16
1.5. The oboes of the Swabian Jura . . . . .	19
1.5.1. Climate change and the birth of the arts. . . . .	19
1.5.2. European cultures of the Upper Paleolithic and Heinrich events . . . . .	22
1.6. Discussion . . . . .	25
<b>Chapter 2. Living with the Extreme</b> . . . . .	27
2.1. The example of super-flooding . . . . .	27
2.2. In search of a new interpretative framework . . . . .	29
2.3. Extreme measurements . . . . .	30
2.3.1. Laughter: characterizing risk in climate change?. . . . .	31
2.3.2. Ecstasy . . . . .	32
2.3.3. Sacrifice . . . . .	33
2.3.4. Communication . . . . .	34
2.4. The first GLOF cultures. . . . .	35

2.4.1. The “bathymetry” of myths and tales . . . . .	35
2.4.2. Some examples of cultures associated with GLOFs . . . . .	36
2.4.3. The severity of the floods and their cultural translation . . . . .	39
2.4.4. The objectification of ice sheet GLOFs . . . . .	40
2.5. The first cultural groups of anatomically modern humans and climate change . . . . .	42
2.6. The problem of Apollo’s birth . . . . .	45
2.7. The constitution of dragons, gods and humans in the myths of the flooding of hydraulic civilizations . . . . .	47
2.8. Discussion . . . . .	48
<b>Chapter 3.!!The Great Historical Transitions of Climate Cultures . . . . .</b>	<b>51</b>
3.1. Historical human cultures, between fiction and knowledge of natural risks . . . . .	51
3.2. Water, a historical problem, from Mesoamerica to Africa . . . . .	54
3.2.1. Human cultures facing floods . . . . .	55
3.2.2. “Dragon” myths. . . . .	57
3.3. Human diversity and taiga shamanism. . . . .	60
3.3.1. Contemporary shamanism, a look at <i>Eros</i> and <i>Askêsis</i> . . . . .	61
3.3.2. Paleolithic cultures according to climate change. . . . .	64
3.4. Spiritual corporalities of body paintings . . . . .	69
3.5. Myths linked to the problem of water: first texts and first empires . . . . .	72
3.5.1. The Superwise. . . . .	74
3.5.2. Court shamanism . . . . .	76
3.5.3. Rome and China . . . . .	78
3.6. Discussion: the politicization of corporalities . . . . .	80
<b>Part 2. Contemporary Cultures and Climate Change . . . . .</b>	<b>83</b>
<b>Chapter 4.!!Norms and Diversity in Climate Change. . . . .</b>	<b>85</b>
4.1. Climate change and normativity . . . . .	85
4.1.1. Normativity and resilience . . . . .	85
4.1.2. Norms and the environment . . . . .	86
4.1.3. History of climate change policy . . . . .	88
4.1.4. Mitigation and adaptation . . . . .	90
4.2. Normativity and diversity . . . . .	91
4.2.1. Diversity: a table of theoretical insights. . . . .	91
4.2.2. Contingency . . . . .	95
4.2.3. Otherness and truth . . . . .	96
4.2.4. Governance and separation of powers. . . . .	98
4.2.5. Operational benefits . . . . .	99
4.2.6. Discussion: what diversities for the climate?. . . . .	101
4.3. The hard and soft law discussion . . . . .	102
4.4. Normativity and climate migration. . . . .	105

---

4.4.1. Climate motivations in migration . . . . .	106
4.4.2. Competition of norms in soft and hard law . . . . .	108
<b>Chapter 5. Organization, Climate and Sustainable Development . . . . .</b>	<b>111</b>
5.1. Organizations and time horizons: Beck's theory . . . . .	111
5.1.1. Organization and globalization . . . . .	111
5.1.2. Beck's theory . . . . .	112
5.2. Corporate social responsibility (CSR) . . . . .	116
5.2.1. Soft law as a standardization of voluntary commitments . . . . .	116
5.2.2. Voluntary engagement standards and "cosmopolitan climate risk communities". . . . .	119
5.2.3. Diversity and governance in climate change . . . . .	121
5.3. Organization and decentralization in the energy transition: the example of Senegal. . . . .	124
5.3.1. Africa, the green continent in the quest for sustainability . . . . .	124
5.3.2. Senegal's Renewable Energy Access Program. . . . .	128
5.3.3. A need to articulate public decentralization and renewable energy. . . . .	132
5.3.4. Quality, pricing and decentralization: an international political economy of energy access. . . . .	133
<b>Chapter 6. Climate and Religion in Protectionism . . . . .</b>	<b>137</b>
6.1. Climate change and protectionism . . . . .	137
6.2. Mercantilism and religion. . . . .	141
6.2.1. Papal bulls, an example of religious regionalism. . . . .	143
6.2.2. Economic nationalism . . . . .	144
6.2.3. Customs revenue . . . . .	145
6.3. Parliamentary protectionism and religion: a comparison of France and the United States . . . . .	147
6.3.1. France . . . . .	149
6.3.2. The United States . . . . .	151
6.4. Interfaith dialogue and fundamentalism . . . . .	154
6.4.1. Traditionalism, fundamentalism and trade policy . . . . .	155
6.4.2. The bridge or the wall . . . . .	156
6.4.3. Discussion . . . . .	158
<b>Conclusion . . . . .</b>	<b>159</b>
<b>Glossary . . . . .</b>	<b>185</b>
