<b>Introduction</b> . . . . .	ix
<b>Chapter 1. Creativity for Innovation.</b> . . . . .	1!
1.1. Definitions of creativity . . . . .	2
1.2. The different forms of innovation. . . . .	6
1.2.1. Incremental innovation and radical innovation . . . . .	7
1.2.2. Innovation from the bottom up . . . . .	8
1.2.3. Disruptive innovation from the top down. . . . .	11
1.2.4. Innovation by market extension . . . . .	13
1.2.5. Some other forms of innovation . . . . .	17
1.3. The metaphor of the fighter plane to link creativity and innovation. . . . .	20
1.3.1. The OODA loop . . . . .	20
1.3.2. The space for imagined aerial maneuvers. . . . .	23
1.4. Conclusion . . . . .	27
<b>Chapter 2. Recognizing and Questioning the Problem</b> . . . . .	29
2.1. Understanding and reformulating a problem . . . . .	29
2.1.1. A series of very simple questions . . . . .	30
2.1.2. Questioning problems with multiple interpretations . . . . .	33
2.1.3. The creation of concepts related to the problem or situation . . . . .	36
2.2. The ideal final result and resources. . . . .	37
2.2.1. The ideal final result . . . . .	37
2.2.2. Start by considering a closed world . . . . .	43
2.2.3. The balance of available resources. . . . .	45
2.3. The levels of understanding and frameworks of a problem. . . . .	46
2.3.1. The levels of scale of an understanding. . . . .	47
2.3.2. Frameworks characterizing the treatment of a problem . . . . .	48
2.3.3. The division of frames and related issues. . . . .	49

---

2.3.4. The benefit of this division and these questions . . . . .	52
2.4. Conclusion . . . . .	53
<b>Chapter 3. Monitoring and the Intelligence Cycle . . . . .</b>	<b>57</b>
3.1. Monitoring and its forms . . . . .	57
3.1.1. The main steps in a monitoring process. . . . .	58
3.1.2. Monitoring according to their location, users and objectives . . . . .	59
3.1.3. Digital, punctual and continuous monitoring. . . . .	60
3.1.4. The practice of monitoring expressed in the form of metaphors . . . . .	62
3.2. Information search and search engines. . . . .	64
3.2.1. Keywords and strings . . . . .	65
3.2.2. Relevant search engine responses . . . . .	66
3.2.3. Choosing and searching on search engines. . . . .	69
3.3. Keywords and search engine searches . . . . .	71
3.3.1. Keyword categories . . . . .	73
3.3.2. The risks inherent in the use of keywords . . . . .	75
3.3.3. Keywords and expressions in texts . . . . .	76
3.4. Warning systems. . . . .	79
3.4.1. Web alert tools . . . . .	79
3.4.2. Content aggregation platforms . . . . .	80
3.4.3. Human resources for collective monitoring . . . . .	81
3.5. The organization of information collection . . . . .	82
3.5.1. The monitoring plan . . . . .	82
3.5.2. Human sources . . . . .	87
3.5.3. Field observations and trade show visits . . . . .	88
3.5.4. Information reports . . . . .	89
3.5.5. The comparative study or benchmarking . . . . .	92
3.6. The processing, formatting and dissemination of information . . . . .	95
<b>Chapter 4. Visual Communication and Idea Management . . . . .</b>	<b>99</b>
4.1. Communication at the heart of the innovation process . . . . .	100
4.2. Knowledge mediation and creativity: the intermediary object, the boundary object. . . . .	105
4.3. The role of visual artifacts in the management of ideas . . . . .	108
4.4. The contributions and limitations of visual communication tools for idea management. . . . .	109
4.4.1. Associative representations . . . . .	110
4.4.2. Territorial representations. . . . .	116
4.4.3. Event and causal representations. . . . .	119
4.4.4. Experiential representations. . . . .	125
4.5. Conclusion . . . . .	127

---

<b>Chapter 5. Animating Teams to Stimulate Collective Creativity</b> . . . . .	129
5.1. (Collective) creativity: a sought-after skill? . . . . .	131
5.2. The “classic” structuring of a collective creativity session . . . . .	133
5.2.1. Step 1 of preparing the creativity session . . . . .	133
5.2.2. Step 2 of the creativity session . . . . .	134
5.2.3. Step 3 of analyzing and reporting all the results of the creativity session . . . . .	135
5.3. The important elements of a collective creativity session . . . . .	135
5.3.1. The attitudes and state of mind for the facilitator to adopt, and for the group of participants to adopt . . . . .	136
5.3.2. Move from analytical to exploratory reasoning . . . . .	139
5.3.3. The three levels of divergence–convergence . . . . .	141
5.4. The choice of creative tools . . . . .	147
5.4.1. The five implementation logics . . . . .	147
5.4.2. The notion of “father tools” . . . . .	148
5.5. Processing the results of a collective creativity session . . . . .	150
5.6. The different forms of production . . . . .	151
5.6.1. The embryo of an idea . . . . .	151
5.6.2. The idea sheet . . . . .	152
5.6.3. The concept and the percept . . . . .	155
5.7. The selection of ideas . . . . .	157
5.8. Conclusion . . . . .	161
<b>Chapter 6. Some Techniques to Stimulate and Aid Creativity</b> . . . . .	163
6.1. Some techniques and tools such as icebreakers or challenges . . . . .	164
6.1.1. The human knot/human chain . . . . .	164
6.1.2. The enigmas . . . . .	165
6.1.3. The marshmallow challenge . . . . .	166
6.1.4. Non-musical chairs . . . . .	167
6.1.5. The ball point game . . . . .	168
6.1.6. Expressing yourself without speaking and using a game . . . . .	170
6.1.7. The highest card tower . . . . .	171
6.1.8. The curved shot . . . . .	172
6.2. Some techniques using associative logic . . . . .	174
6.2.1. The magic wand or the machine for exploring the future . . . . .	174
6.2.2. Once upon a time – some ideas . . . . .	175
6.2.3. Reasons and changes . . . . .	176
6.2.4. The big mysterious object bag . . . . .	177
6.2.5. Concept serious play . . . . .	178
6.3. Some techniques using analog logic . . . . .	180

---

6.3.1. The twisting of ideas or the reversal method . . . . .	180
6.3.2. Biostorming . . . . .	181
6.3.3. Miniature men . . . . .	183
6.3.4. Lego serious play . . . . .	184
6.4. Some techniques using combinatorial logic . . . . .	186
6.4.1. The discovery matrix . . . . .	186
6.4.2. Extensive morphological analysis . . . . .	187
6.4.3. Cubification . . . . .	189
6.4.4. The scaffolding of ideas . . . . .	191
6.5. Some techniques using oneiric logic . . . . .	195
6.5.1. The ancient method of the waking dream . . . . .	195
6.5.2. Projective exploration . . . . .	197
6.5.3. The village of originals . . . . .	197
6.6. Some techniques using Aristotelian logic . . . . .	200
6.6.1. UX maps . . . . .	200
6.6.2. Segmentation . . . . .	201
6.6.3. Creative aikido . . . . .	202
6.6.4. Simplified axiomatic design . . . . .	204
6.7. Conclusion . . . . .	206
<b>Chapter 7. System Mapping and Analysis . . . . .</b>	<b>207</b>
7.1. Mapping of the system's tangible and intangible assets . . . . .	207
7.1.1. Knowledge management and assets considered . . . . .	207
7.1.2. From knowledge assets to ideas . . . . .	209
7.1.3. Assets indirectly involved in knowledge creation . . . . .	213
7.1.4. The glossary of knowledge creation system assets . . . . .	216
7.1.5. Questioning and organizing assets in frameworks . . . . .	219
7.2. System analysis . . . . .	222
7.2.1. The development of a series of indicators . . . . .	222
7.2.2. Beyond the calculation of indicators . . . . .	231
<b>Conclusion . . . . .</b>	<b>239</b>
<b>Bibliography . . . . .</b>	<b>243</b>
<b>Index . . . . .</b>	<b>259</b>
