<b>Introduction</b> . . . . .	ix
<b>Chapter 1. Organizations and Digital Technology</b> . . . . .	1
1.1. Organizations of the “information society” . . . . .	2
1.2. Temporality of devices and organizations . . . . .	5
1.2.1. Internal temporality of the devices and temporality of the organization . . . . .	5
1.2.2. Permanent prototype deployment . . . . .	6
1.3. ICT-enabled mediation . . . . .	8
1.3.1. From IT to ICT . . . . .	11
1.3.2. Action mediated by technical devices . . . . .	13
1.3.3. ICT and quantophrenia. . . . .	16
1.4. The transformation of organizations . . . . .	18
1.4.1. Digital hybridization of organizations. . . . .	21
1.4.2. Digital uses: tensions between private and professional life. . . . .	22
1.4.3. Diversion of technologies . . . . .	23
<b>Chapter 2. The Platform Organization</b> . . . . .	27
2.1. Networking of the organization . . . . .	29
2.1.1. Foundations of the reticular organization. . . . .	30
2.1.2. A cybernetic reading of the organization . . . . .	32
2.2. Platformization of organizations . . . . .	33
2.2.1. Brief history of the platform . . . . .	34
2.2.2. The specificity of platform capitalism: culture and use of data . . . . .	35
2.2.3. Towards the construction of a “platform organization” . . . . .	39
2.3. The platform state . . . . .	40
2.3.1. The thinking of the State as a platform . . . . .	41

---

2.3.2. The State, a platform like any other? . . . . .	44
2.4. Platform and knowledge . . . . .	48
2.4.1. Knowledge organization within the framework of the platform . . . . .	49
2.4.2. Knowledge sharing and dissemination . . . . .	50
<b>Chapter 3. Sociotechnical Instrumentation of Collective Intelligence</b> . . . . .	55
3.1. Social instrumentation through digital technology . . . . .	55
3.1.1. The organization's sociotechnical project . . . . .	58
3.2. Collective intelligence, an operating model for organizational transformation . . . . .	62
3.2.1. Origin of the concept of collective intelligence . . . . .	64
3.2.2. Instrumented collective intelligence . . . . .	65
3.3. Collective action and analysis of the potential of collective intelligence . . . . .	67
3.3.1. Setting up collective action . . . . .	67
3.3.2. Collective action and organizational knowledge . . . . .	69
3.3.3. Framework for analyzing the potential of collective intelligence . . . . .	70
3.4. From communities to meta-organization . . . . .	71
3.4.1. Communities of practice. . . . .	72
3.4.2. Virtual communities . . . . .	74
3.4.3. Towards virtual communities of practice . . . . .	75
3.4.4. The construction of a meta-organization through communities. . . . .	77
<b>Chapter 4. Organization Experience</b> . . . . .	81
4.1. Organization through the prism of change. . . . .	81
4.2. Sociotechnical device and catalyst for organizational transformations . . . . .	83
4.2.1. Co-construction of sociotechnical devices . . . . .	86
4.2.2. Towards an instrumental genesis of the organization. . . . .	89
4.3. Organizational variations of collective intelligence . . . . .	91
4.3.1. Collective intelligence and "glocal" logic . . . . .	92
4.4. Intangible common goods . . . . .	96
4.4.1. Internal use of non-rival goods . . . . .	96
4.4.2. The use of the Web of Data for the provision of digital commons. . . . .	98

<b>Conclusion</b> .....	101
<b>Appendix</b> .....	109
