<b>Preface</b> . . . . .	xi
<b>Introduction</b> . . . . .	xv
<b>Part 1. Electronic Health Records: Standards and Other Initiatives</b> . . . . .	1
<b>Chapter 1. Electronic Medical Records and Their Standards</b> . . . . .	3
1.1. Introduction . . . . .	3
1.1.1. Requirements of EHRs . . . . .	7
1.1.2. Benefits of EHRs . . . . .	10
1.1.3. An overview of EHRs . . . . .	12
1.2. Standards for EHRs . . . . .	12
1.2.1. Goals of standards for HER and the main issues of health information systems . . . . .	13
1.2.2. Standards and rules . . . . .	14
<b>Chapter 2. Health Level 7</b> . . . . .	21
2.1. Introduction . . . . .	21
2.2. The background to HL7 . . . . .	23
2.3. Goals and objectives of HL7 . . . . .	25
2.4. HL7 format . . . . .	26

---

2.5. Overview of the standards . . . . .	27
2.6. Basic HL7 transactions model . . . . .	27
2.7. HL7 functional model . . . . .	28
<b>Chapter 3. Clinical Document Architecture . . . . .</b>	<b>33</b>
3.1. Introduction . . . . .	33
3.2. Aims and objectives of CDA . . . . .	34
3.3. Levels of CDA . . . . .	35
3.4. CDA identifiers . . . . .	38
3.5. Design of a CDA document. . . . .	38
3.5.1. CDA header . . . . .	39
3.5.2. Level 1 CDA body . . . . .	43
3.6. HL7 v3.0 data types . . . . .	50
<b>Chapter 4. Digital Imaging and Communications in Medicine. . . . .</b>	<b>53</b>
4.1. Introduction . . . . .	53
4.2. DICOM objectives. . . . .	60
4.3. DICOM and other standards . . . . .	61
4.4. Relation between DICOM standard parts . . . . .	63
4.5. Parts of the DICOM standard. . . . .	67
<b>Chapter 5. Other Standardization Initiatives . . . . .</b>	<b>75</b>
5.1. Introduction . . . . .	75
5.2. International Organization for Standardization/TC 215 . . . . .	76
5.3. European Committee for Standardization/ Technical Committee (CEN/TC) 251 . . . . .	78
5.4. Common object request broker architecture . . . . .	83
5.5. Good European Health Record . . . . .	85
5.5.1. Patient requirements . . . . .	86
5.5.2. GEHR architecture description . . . . .	86
5.6. Integrating the Healthcare Enterprise . . . . .	86
5.7. Open EHR. . . . .	88
5.8. Security standards in EHRs . . . . .	90
5.9. CEN ENV 13608-1:2000: security for healthcare communication . . . . .	92

<b>Part 2. Emerging e-Health Technologies and Applications</b> . . . . .	95
<b>Chapter 6. Body Area Networks</b> . . . . .	97
6.1. Introduction . . . . .	97
6.2. Wireless technology used for sensor communication . . . . .	102
6.3. What is a sensor? . . . . .	105
6.3.1. Type of sensors . . . . .	107
6.4. Wireless body area networks. . . . .	111
6.5. WSNs, BANs, wearable sensors and deployment for e-Health, disabled and elderly people . . . . .	113
6.5.1. Systems, wearable sensors and deployment for e-Health applications . . . . .	113
6.5.2. General purpose wireless nodes used on e-Health applications . . . . .	117
6.6. The alternative: using smartphones to deploy WBANs . . . . .	119
<b>Chapter 7. Mobile Health Technologies and Applications</b> . . . . .	123
7.1. Introduction . . . . .	123
7.2. Mobile health: an overview . . . . .	125
7.3. Study and analysis of current m-Health applications . . . . .	127
7.3.1. Overview of available m-Health applications. . . . .	127
7.3.2. Analysis of the available m-Health applications. . . . .	131
7.4. Conclusions . . . . .	138
<b>Chapter 8. Mobile Computing in Medicine: Case Studies</b> . . . . .	141
8.1. Introduction . . . . .	141
8.2. M-Health applications . . . . .	144
8.3. A case study in cardiology. . . . .	147
8.3.1. A mobile app for heart disease self-management . . . . .	147
8.4. Conclusions . . . . .	153

---

<b>Chapter 9. Ambient Assisted Living</b> . . . . .	155
9.1. Introduction . . . . .	155
9.2. Areas of application . . . . .	156
9.3. Key applications. . . . .	159
9.3.1. Prototype m-Health service . . . . .	160
9.3.2. Health at Home. . . . .	162
9.3.2. FLORENCE project . . . . .	163
9.3.3. PERSONA project . . . . .	167
9.3.4. KSERA project . . . . .	169
9.3.5. CompanionAble project. . . . .	171
9.3.6. UniversAAL project . . . . .	175
9.4. Conclusion . . . . .	177
<b>Chapter 10. Social Networks on Healthcare</b> . . . . .	179
10.1. Introduction. . . . .	179
10.2. Examples of social networks for different diseases. . . . .	181
10.2.1. Mental and neurodegenerative diseases on Facebook and Twitter. . . . .	181
10.2.2. Cancer and diabetes on Facebook and Twitter. . . . .	186
10.3. Conclusions . . . . .	189
<b>Chapter 11. Cloud Computing on e-Health.</b> . . . . .	191
11.1. Introduction. . . . .	191
11.2. Cloud computing. . . . .	193
11.3. Cloud computing and e-Health systems . . . . .	199
11.3.1. Requisites. . . . .	200
11.3.2. Issues . . . . .	201
11.3.3. Benefits . . . . .	202
11.4.4. Constraints. . . . .	205
11.4. Conclusions . . . . .	206
<b>Chapter 12. Security and Privacy in e-Health Applications over the Cloud</b> . . . . .	209
12.1. Introduction. . . . .	209
12.2. Privacy and security in e-Health . . . . .	213
12.3. Cloud security in e-Health . . . . .	217

12.4. A secure authentication mechanism for e-Health cloud services . . . . .	222
12.5. Conclusions . . . . .	225
<b>Bibliography</b> . . . . .	227
<b>Index</b> . . . . .	259
