<b>INTRODUCTION</b> . . . . .	vii
<b>CHAPTER 1. EVOLUTION AND EVOLUTIONARY ALGORITHMS</b> . . . . .	1
1.1. Brief introduction to evolution . . . . .	2
1.2. Mechanisms of evolution . . . . .	6
1.2.1. DNA code . . . . .	6
1.2.2. Mutation . . . . .	6
1.2.3. Sexual reproduction and recombination . . . . .	7
1.2.4. Natural selection . . . . .	8
1.2.5. Genetic drift . . . . .	9
1.3. Artificial evolution . . . . .	9
1.3.1. The basic process . . . . .	10
1.3.2. Limitations . . . . .	12
1.4. Applications on networks . . . . .	13
1.4.1. Network positioning . . . . .	13
1.4.2. Routing . . . . .	19
1.4.3. Other works . . . . .	25
1.5. Further reading . . . . .	25
1.6. Bibliography . . . . .	27
<b>CHAPTER 2. CHEMICAL COMPUTING</b> . . . . .	31
2.1. Artificial chemistry . . . . .	34
2.2. Applications on networks . . . . .	36
2.2.1. Data dissemination . . . . .	36
2.2.2 Routing . . . . .	38

2.3. Further reading . . . . .	41
2.4. Bibliography . . . . .	42
<b>CHAPTER 3. NERVOUS SYSTEM . . . . .</b>	<b>45</b>
3.1. Nervous system hierarchy . . . . .	46
3.1.1. Central nervous system . . . . .	47
3.1.2. Peripheral nervous system . . . . .	47
3.2. The neuron . . . . .	49
3.3. The neocortex . . . . .	51
3.4. Speed and capacity . . . . .	54
3.5. Artificial neural networks . . . . .	56
3.5.1. The perceptron . . . . .	57
3.5.2. Interconnecting perceptrons . . . . .	59
3.5.3. Learning process . . . . .	62
3.5.4. The backpropagation algorithm . . . . .	63
3.6. Applications on networks . . . . .	66
3.6.1. ANN in intrusion detection systems . . . . .	67
3.6.2. Fault detection . . . . .	69
3.6.3. Routing . . . . .	71
3.7. Further reading . . . . .	74
3.8. Bibliography . . . . .	75
<b>CHAPTER 4. SWARM INTELLIGENCE (SI) . . . . .</b>	<b>81</b>
4.1. Ant colony optimization . . . . .	86
4.2. Applications on networks . . . . .	87
4.2.1. Ants colony on routing . . . . .	87
4.2.2. Ants colony on intrusion detection . . . . .	90
4.3. Particle swarm optimization . . . . .	93
4.4. Applications on networks . . . . .	95
4.4.1. Particle swarm on node positioning . . . . .	95
4.4.2. Particle swarm on intrusion detection . . . . .	96
4.5. Further reading . . . . .	98
4.6. Bibliography . . . . .	99
<b>GLOSSARY . . . . .</b>	<b>103</b>
<b>INDEX . . . . .</b>	<b>107</b>
