

Table of Contents

Preface	15
PART 1. Introduction	21
Chapter 1. Introduction to Knowledge Management	23
Jean-Louis ERMINE	
1.1. Introduction	23
1.1.1. Knowledge: a strategic value for the firm	23
1.1.2. Objectives of KM	23
1.1.3. KM: a new and complex approach	24
1.2. The two types of approaches to KM	24
1.2.1. Knowledge elicitation	25
1.2.1.1. Tacit knowledge elicitation	25
1.2.1.2. Knowledge extraction	26
1.2.1.3. Supporting technologies for explicit (elicited) KM	27
1.2.2. Tacit KM.	27
1.2.2.1. The functioning modes of knowledge communities.	28
1.2.2.2. Knowledge community supervision	29
1.2.2.3. Supporting technologies for knowledge communities.	30
1.3. The key factors of success in KM processes	31
1.3.1. The water lily strategy.	31
1.3.1.1. The pilot project(s).	33
1.3.1.2. The federation of KM projects	33
1.3.1.3. Project deployment.	34
1.3.2. Change factors	34

6 Trends in Enterprise Knowledge Management

1.4. KM: an action for continuous progress.	35
1.4.1. Knowledge cartography	36
1.4.2. The repository of KM processes	37
1.4.3. The KM actions.	39
1.4.4. Piloting processes and actions	41
1.5. Conclusion	41
1.6. Bibliography.	42

Chapter 2. Can One Identify and Measure the Intangible Capital of the Enterprise? 45
Patrick EPINGARD

2.1. The intangible capital: an essential and elusive concept	47
2.2. Immaterial measurement: a theoretical enigma?	54
2.3. Conclusion	62
2.4. References.	63

Chapter 3. Complexity Theory: Dynamics and Non-Linearity are the Only Reason for Knowledge Management to Exist 65
Walter BAETS

3.1. Introduction	65
3.2. The knowledge era	66
3.3. The complexity paradigm.	68
3.4. What should be understood by KM: the corporate view	73
3.5. Research perspective on KM	75
3.6. References.	77

PART 2. Academic Studies 79

Chapter 4. Value Creation through Intangibles: Emerging Good Practice 81
Nigel COURTNEY, Clive HOLTHMAN and Chris HENDRY

4.1. Introduction	81
4.2. A remedy for our times	83
4.3. Dispensing with the mystery	84
4.4. Value creation in the 21 st century	88
4.4.1. Selecting an approach	88
4.4.2. Taking a balanced view	90
4.5. Evidence of good practice	90
4.5.1. Theme 1: brand value	91
4.5.1.1. B&Q	91
4.5.1.2. Whitbread	92

4.5.2. Theme 2: knowledge	93
4.5.2.1. Bloomberg	93
4.5.2.2. The UK Fire & Rescue Service	94
4.5.3. Theme 3: innovation	95
4.5.3.1. Intercos	95
4.5.3.2. mmO2	96
4.5.4. Theme 4: reporting intellectual capital	97
4.5.4.1. Austrian Research Centers (ARC).	97
4.5.4.2. Celemi	98
4.6. Key messages	99
4.7. About the authors	100
4.8. References.	101
Chapter 5. Learning-by-Doing Knowledge Externalization: From Boundary Objects to the Emergence of Tacit Knowledge	103
Jean-Michel VIOLA and Réal JACOB	
5.1. Learning-by-doing KM.	104
5.2. A process of externalization: knowledge strategy at Power Corp.	105
5.2.1. Mapping as a knowledge audit and mapping as scenario planning	107
5.2.2. Criticality assessment scales as decision rules	107
5.2.3. Modeling as a learning tool, as co-creation of knowledge	107
5.2.4. Plans as road maps addressing more specifically the need for tacitness	108
5.3. The tacit output of externalization: the importance of boundary objects	108
5.3.1. Externalization creates critical boundary objects.	109
5.3.2. Refining the classical definition of tacit knowledge	109
5.3.2.1. Tinkering	110
5.3.2.2. Judgment	110
5.3.2.3. Connectivity.	110
5.3.2.4. Coordination.	111
5.4. Conclusions and lessons learned.	111
5.5. Bibliography.	112
Chapter 6. Approaches and Methods for Valuing Knowledge Management Performance	115
Aurélie DUDEZERT	
6.1. KM performance: the aims of an evaluation	116
6.1.1. The knowledge-based view: a theoretical relation between KM and organizational performance	116
6.1.2. What is performance for KM?	117
6.1.3. What is KM?	118

8 Trends in Enterprise Knowledge Management

6.2. Method of research and inquiry	119
6.3. Macro-organizational approaches to valuing KM performance.	119
6.3.1. The competitive performance of KM	120
6.3.2. The financial performance of KM	121
6.4. Micro-organizational approaches to valuing KM performance.	122
6.4.1. The process-based approach to the performance of KM	122
6.4.2. The systemic approach to the performance of KM.	123
6.5. Conclusion	124
6.6. References.	124

Chapter 7. ICIS for Knowledge Management: The Case of the Extended Enterprise 131
Imed BOUGHZALA

7.1. Introduction	131
7.2. Concepts and definitions	132
7.2.1. Inter-company co-operation and the extended enterprise	132
7.2.2. ICIS and KM	132
7.3. MeDICIS	135
7.4. Models for ICIS design.	138
7.4.1. The business model	138
7.4.2. The co-operation model	139
7.4.3. The agent model	140
7.4.4. The communication model.	141
7.4.5. The co-ordination model.	142
7.4.6. The CPS model	143
7.5. Discussion.	144
7.6. MeDICIS life cycle.	145
7.7. Conclusion	146
7.8. About the author	147
7.9. References.	147

Chapter 8. Knowledge Management and Environment Scanning: A Methodological Guide to Improving Information Gathering 149
Thierno TOUNKARA

8.1. Introduction	149
8.2. Modeling of the interaction process between the corporate knowledge of the firm and its environment.	150
8.3. General approach	151
8.3.1. Requirements specification for environment scanning	151
8.3.2. Description of the approach	151

8.4. Knowledge book	153
8.4.1. Methodological tools	154
8.4.1.1. Methodological tools for MASK application	154
8.4.1.2. Classification of the knowledge to be modeled according to the type of environment scanning.	155
8.4.2. Case study: Renault	157
8.5. Construction of axes	157
8.5.1. Construction of a partition	159
8.5.1.1. Methodological tools for the elaboration of a partition	159
8.5.1.2. The grid of criteria for the grouping of the models into classes	159
8.5.1.3. The grid of semantic links	161
8.5.1.4. Renault case study: an example of grouping by connectivity	162
8.5.2. Extraction and grouping of information into classes	162
8.5.3. Identification of themes	163
8.5.3.1. Qualitative evaluation grid for the criticality of themes	163
8.5.3.2. Approach and illustration.	163
8.5.4. Construction of the visual synthesis	164
8.6. Elaboration of the “environment scanning focus”.	165
8.7. Evaluation of our approach	167
8.8. Conclusion	167
8.9. References.	168
Chapter 9. The Concept of “Ba” within the Japanese Way of Knowledge Creation	171
Pierre FAYARD	
9.1. A Japanese concept	172
9.2. “Elementary, my dear Watson!”	173
9.3. The Human Health Care (HHC) program	176
9.4. Shaping a new way of functioning for organizations	178
9.5. References.	179
9.6. Further reading	179
PART 3. Club Workshop Studies	181
Chapter 10. The Knowledge Maturity Model	183
Jean-François TENDRON	
10.1. Introduction	183
10.2. Work methodology of the commission on “Aspects économiques de la gestion des connaissances” (economic aspects of KM).	184
10.3. The Knowledge Maturity Model (KMM)	186

10 Trends in Enterprise Knowledge Management

10.4. Use of the KMM	188
10.4.1. Raising consciousness about KM	188
10.4.2. Evaluation of a community's maturity in terms of KM	190
10.4.2.1. Example of evaluation	190
10.4.2.2. Example of reactions	192
10.5. Perspectives	193
10.6. Conclusion	194
10.7. References	195

Chapter 11. Knowledge Mapping: A Strategic Entry Point to Knowledge Management 197
Gérard AUBERTIN

11.1. Why map corporate knowledge?	197
11.2. What knowledge and competencies should be mapped?	199
11.3. How is knowledge/competency mapping performed?	202
11.3.1. Defining the mapping goal	202
11.3.2. Identifying knowledge	202
11.3.2.1. Conceptual approach to identifying knowledge	203
11.3.2.2. Process-based approach to identifying knowledge	204
11.3.2.3. Identifying knowledge using automatic mapping tools	205
11.3.3. Building the areas of the knowledge map	205
11.3.4. Representing knowledge: the area-based mapping model	206
11.3.4.1. Formal model	206
11.3.4.2. The graphical model	208
11.4. What are the operational uses and mapping tools?	209
11.5. Knowledge mapping and criticality study	210
11.5.1. Defining criticality	210
11.5.2. The criticality study as risk assessment	210
11.5.3. Defining critical factors	211
11.5.4. Preparing an assessment schedule and performing the criticality study	212
11.5.5. Calculating area criticality	213
11.5.5.1. Different critically average values	213
11.5.5.2. Assessments differences	214
11.5.5.3. Non-discriminating criterion	214
11.5.6. Analyzing results	215
11.6. How to manage a mapping project	215
11.6.1. Opportunity study	215
11.6.2. Managing change	215
11.6.3. Action principles	216
11.7. Conclusion	216
11.8. Bibliography	216

Chapter 12. Knowledge Management and Innovation (Innovation Maturity Model)	219
Jean-Marie BEZARD	
12.1. Introduction	219
12.2. The evolution and path dependence hypothesis	220
12.3. Innovation factors.	221
12.3.1. Case studies	221
12.3.2. The Innovation Maturity Model (IMM)	221
12.4. Conclusion	224
12.5. References	225
Chapter 13. Technology and Knowledge Management (Technology Maturity Model)	227
Olivier LEPRETRE	
13.1. Introduction	227
13.2. Knowledge diffusion vehicle.	228
13.3. The limits of the diffusion of knowledge	231
13.4. The need for global vision	235
13.5. The Technology Maturity Model (TMM)	236
13.6. Following a TMM approach	237
13.7. Application of TMM	239
13.5. References	242
PART 4. Case Studies	243
Chapter 14. Once-upon-a-time Knowledge Management at Mann+Hummel Automotive France	245
Nathalie LE BRIS	
14.1. The increasing importance of knowledge sharing for Mann+Hummel France	245
14.2. An approach based on core knowledge cartography	246
14.2.1. What are the needs of the employees?	246
14.2.2. A cartography that allows us to build an action plan	247
14.2.3. Actions from the Nonaka virtuous circle.	250
14.2.4. A well appreciated approach	252
14.3. Implementation of lessons learned	252
14.4. Knowledge explicitation.	253
14.5. Sharing of explicit knowledge	254
14.6. Direct transfer of knowledge.	255
14.7. KM: an everyday task based on people more than on technology	255

**Chapter 15. Thales System Engineering Community of Practice:
A Knowledge Management Approach. 257**
Cécile DECAMPS and Michel GALINIER

15.1. Introduction 257

15.2. The knowledge sharing approach. 258

15.3. The Systems Engineering Community of practice at Thales 259

15.4. Why is there a KM portal dedicated to the Systems Engineering
Community? 260

15.5. The Systems Engineering portal 262

 15.5.1. Functionalities supporting SE community animation and
 management 262

 15.5.2. Functionalities supporting access to SE community people
 and competencies 263

 15.5.3. Functionalities supporting access to documents and other
 kinds of content. 263

15.6. Rolling out/organization. 265

15.7. The associated support organization 265

15.8. Balance and perspectives 266

15.9. Bibliography 267

**Chapter 16. Appraising the Knowledge in a Radio-pharmacy Center
based on Process Mapping and Knowledge Domain Cartography 269**
Rita Izabel RICCIARDI and Antonio Carlos DE OLIVEIRA BARROSO

16.1. Introduction 269

16.2. The importance of knowledge identification and evaluation
within organizations 270

16.3. The case study 270

 16.3.1. History and context of the Radio-pharmacy Center 270

 16.3.2. The Center profile and key comments on its
 knowledge issues 272

16.4. The KM project. 275

 16.4.1. Study of processes 275

 16.4.2. Knowledge identification (“enabling knowledge”) 275

 16.4.3. Construction of the knowledge cartography 276

 16.4.4. “Criticality” analysis 277

 16.4.5. Setting up a KM plan of action 279

16.5. References 279

Chapter 17. Case Study: Knowledge Preservation for a Nuclear Reactor.	281
Marta EPPENSTEIN	
17.1. Introduction	281
17.1.1. Atucha-type reactors	282
17.2. Practical approaches	282
17.2.1. Strategy analysis	282
17.2.1.1. Different approaches to the map	283
17.2.1.2. Identification of knowledge axes	284
17.2.2. Identification of the critical knowledge: approaches	285
17.2.2.1. Rare or unable of replacement	285
17.2.2.2. Usefulness for the company	285
17.2.2.3. Difficult to obtain	286
17.2.2.4. Difficult to use	286
17.2.3. Building the knowledge map	287
17.2.4. Knowledge server	287
17.3. Technical development: analysis factors	289
17.3.1. Knowledge transfer and capitalization	289
17.3.2. Human resources	290
17.4. Conclusion	291
17.5. References	291
17.6. Further reading	292
The Authors	293
Index	295
